Vision

To Treat Every Student as an Individual, To Recognize His/Her Potential and To Ensure That He/She Receives The Best Preparation to Help One Meets His/Her Career Ambitions and Goals.

Mission

To Develop Young Engineers with Active and Creative Minds, A Sense of Understanding and Sympathy for Others and the Courage To Act On Their Beliefs. We Stress the Total Development of Each Student: Spiritual, Moral, Intellectual, Social, Emotional and Physical.

“If you are not willing to risk the usual you will have to settle for the ordinary.”

The same intent nurtured 'GIT- A Song of Technocrats' all the way from its inception through the release of its inaugural issue and today we stand here to present the ninth issue which motivates and highlights creativity of students to be painted on the vibrant Institute campus.

Gandhinagar Institute of Technology always provides a vital platform to the students and academicians to execute their knowledge, skills and talent with the medium of 'GIT- A Song of Technocrats' which is crafted to showcase academics and co-curricular achievements of students as well as faculty members to emphasizes the diversity that the stakeholder brings to the institute.

'GIT- A Song of Technocrats' is committed to enhance holistic development including critical thinking, moral reasoning and innovation, performing arts and literary sense and unveils the hidden creative assets within the students under the leadership of Dr N M Bhatt, Director GIT and his team. I am sure that GIT will climb more steps towards the peak of success under his leadership.

I also take the opportunity to congratulate the editorial team who could bring out such a brilliant and colourful volume with their sincere and dedicated efforts in a collaborative environment.

**Shri Hareshbhai Rohera
Trustee**

“Education is the most powerful weapon that you can use to change the world.”

It gives me immense pleasure to learn that Gandhinagar Institute of Technology has come up with the ninth edition of its annual magazine. I am sure that 'GIT- A Song of Technocrats' would, in the most efficient manner, delineate the activities of the institute and exhibit the exuberant talent of young minds.

The goal of GIT is to constantly nurture and develop the personality of young and dynamic minds who would shape the future technological landscape of India. GIT has always been instrumental towards achieving this goal. The world today is a much better place to develop one's potential. One is not limited by choice or technology, but only by the power of one's determination. Today taking admission in engineering has become very easy, but becoming a good engineer has no short cut. To excel in any engineering course, a lot of hard work, disciplined self-study schedule and dedication towards learning is required.

With unbeatable spirit, focused approach and clarity of the purpose, students can do wonders in academics as well as in extra-curricular. With an intent to develop the winner's attitude in GITIANS, the ambience is crafted to tap their inner spirit and take out the best that is hidden in them, with a focus in curricular studies and overall personality development through ideal study schedule, various activities, technical fests, cultural extravaganzas, industrial tours, seminars, presentations and various other projects.

I must mention without fail that credit for through development of our institute goes to Dr N M Bhatt and the dedicated faculty members. I take this opportunity to congratulate the editorial team of 'GIT- A Song of Technocrats' for their sincere and dedicated team efforts and hard work. I also congratulate the authors who have contributed by their thought process to make this edition a success.

Shri Ghanshyambhai Thakkar
Trustee

**Strive for perfection in everything we do.
We take the best that exists and make it better.
And when it does not exist, we design it.**

It gives me immense pleasure to present before you the issue of annual memoir 'GIT- A Song of Technocrats' a brief of our vision and efforts for the ninth successive year. It is good to see that today's generation has not lost its literary roots, despite the perpetual efforts of e-Technology to extinguish the flames of the written word. 'GIT- A Song of Technocrats' is an exceptional proof that the literary flame is burning bright within our students. They have proved that the literary prowess can go hand in hand with technical mastery, thus enabling accomplishment of the institute's goal of all-round development of the students.

GIT has earned a great name due to its commitment of making the dreams of its students come true. We are distinguished because of the missionary zeal that we have maintained ever since. We have tried our level best and succeeded in our goal of giving to the nation good citizens not only with 'A Degree', but a disciplined person with high moral character, great human values, healthy body and sound mind. For this we conduct a great deal of activities, both field and literary, along with a full stress on the classroom studies.

The vision of the institute is, 'To produce world class engineers for converting global challenges into opportunities through value embedded quality technical education'. To achieve this, we have to develop this institute as a Centre of Academic excellence of higher learning in the fields of engineering and technology. All the efforts are focused towards fulfilment of vision and mission.

We had yet another year of full of activities to nurture inclusive growth of our students. Our annual technical symposium 'TechXtreme 2016' was successfully organized. An enviable number of more than 3000 students of various technical institutions across the nation took part in the Techfest. Annual cultural festival 'Jazba 2015' was a huge success again. The events were vibrant with presence of famous celebs like Aditya Narayan, Meet Bros, Khusbu Grewal and DJ Rink. During the year, we arranged Spoken tutorials on Linux, Latex, Scilab, Myphp, Python etc. in association with IIT Bombay, workshops on solid works, Energy Conservation Awareness, Automobile Engineering, Quad copter, Robotics, Cyber security and many more for our students and faculty members. The institute has also successfully organized Kite flying competition, Ratri B4 Navaratri and Sports activities. To sensitize the students about social issues, a great deal of events like Traffic awareness, Cancer awareness, Anti-Narcotics campaign, Cyclothon, Cleanliness drive, Joy of giving, Blood donation drive, Thalassaemia awareness camp and Women empowerment seminars were organized. Institute has organized many industrial visits and expert lectures for the students for supplementing the class room teaching. To nurture entrepreneurship talent of the students, institute has established E-Cell. Many activities including three days entrepreneurship awareness camp were also organized.

Successful organization of co-curricular activities of such magnitude is not possible without whole hearted support of committed and experienced Trustees and BoG members of Platinum Foundation Mr. Hareshbhai Rohera, Mr. Ghanshyambhai Thakkar, Mr. Deepakbhai Ravani, Mr. Pravinbhai Shah, Mrs. Varshaben Pandhi and Mr. Mahendrabhai Pandhi. I take an opportunity to express my deep feelings of gratitude to all of them for their constant support and motivation.

It's my privilege to compliment the staff members and the students for showing high level of liveliness throughout the year. I also congratulate the team of the 'GIT- A Song of Technocrats' for their untiring effort to bring out this ninth issue of the annual magazine. I would look forward to the subsequent editions of the magazine.

Dr N M Bhatt
Director

“We have come up a long way, and there is for sure a much longer way to go”

It has given me immense pleasure to publish the ninth issue of the college magazine, 'GIT- A Song of Technocrats' for the year 2016. The college magazine is a show-case of the academic, extracurricular and co-curricular talents and skills of the students. It is the voice of GITIANS and aims to reverberate their ideas. It really shows their intellectual and excellent command on language and it was indeed a tough task to choose a few ones that are printed in this magazine. This magazine reflects of our college quality in terms of all round excellence.

The quotation “Coming together is a beginning; keeping together is progress; working together is success” rightly depicts the meaning of 'GIT- A Song of Technocrats', the name of our annual magazine. This magazine has been a common platform for all the students and faculty members to bring out their expressions in the literary form. Indeed, the documentation has been a great source of motivation to the emerging youth. On other hand, it records the creation, trans-creation, achievements and events of our institute. It also presents an account of curricular and co-curricular activities at GIT, Gandhinagar.

This magazine would not have been completed without the constant support of our director, Dr N M Bhatt who stood as a pillar of strength and support at all times. We also acknowledge the enthusiasm and support imparted by the students, faculties and administrative staff in making this issue a success.

We are sure when you read this issue, it will lay no stone unturned to appreciate the strong, reflective and responsive individual ideas as well as creative and hard work of the students and staff members.

We acknowledge with thanks the supports rendered by Mr. Hiren Trivedi for editing the articles.

Prof. Hitesh Patel (CE)

Prof. Om Joshi(M&H)

With a view to provide a smooth transition for the students into the new environment of the Institute and to impassionate and motivate the young minds, Gandhinagar Institute of Technology, Gandhinagar organized an orientation programme for the freshly admitted B.E students at the institute premises on 1st August 2015. The major objective of the programme was to make the parents and students aware of the academic aspects of the course, the rules and regulations of the institute and ensuring parental participation in monitoring the performance and progress of the students. For the expediency of the students, they were divided into two groups.

The 1st session of the orientation Programme for the students of Mechanical Engineering and Civil Engineering was scheduled from 9:30 am. to 12:00 pm. in the Seminar hall. The 2nd session of the Orientation Programme for the students of Computer Engineering, Information Technology, Electrical Engineering & Electronics and Communication Engineering was scheduled in seminar hall from 1:30 pm. onwards.

The Orientation program started with “Saraswati Vandana”. It was followed by a valuable speech by Dr N M Bhatt, Director of the institute. He brought to light that GTU has introduced a subject named design engineering, wherein the students start working on innovative projects right from their 3rd semester. The syllabus of GTU also includes a subject named Contributor Personality Development which helps students to cultivate the right attitude towards life. He also mentioned that within the curriculum of engineering, all the students work on IDP/UDP, making innovative projects that contribute to the state and nation at large.

Dr N M Bhatt, Director of GIT and All the Heads of Department

Prof. Umang Patdiwala, the Head of Mechanical Engineering Department; Prof. Jay Parmar, the Head of Civil Engineering Department; Prof. Kinjal Adhvaryu, the Head of Computer Engineering Department; Prof. Rahul Vaghela, the Head of Information Technology Department; Prof. Hardik Bhatt, the Head of Electronics and Communication Engineering Department; Dr. Umang R. Patel, the Head of Electrical Engineering Department directed the students regarding their specific branches respectively.

After the speech of HOD Civil, from 11:30 onwards the students were shown a live video message of Honorable Vice Chancellor of Gujarat Technological University, Dr. Akshai Aggarwal. His perspicacious thoughts guided all the parents and students. Multimedia videos on “The Entrepreneurship Cell” run by the Institute, “Startup Village: Build, Break and Innovate”, and “GT motor sport” provided by Gujarat Technological University were presented during the orientation programme. In the afternoon session video of inspirational speech by Honorable Prime Minister Shri. Narendra Modi was also featured.

Mr Snehal Barot, the Training and placement officer of the Institute gave important information regarding placement. Prof. Kuldip Dodiya, the GTU Co-ordinator elaborated the exam pattern of GTU. The head of resource center, Ms. Ruapm Sikligar guided the students regarding the important information about the essential resources available in the resource center.

At the end, during question answer session, queries from students were encouraged and solved. The orientation programme was not just for the students, but for the parents as well From 12:00 to 1:00 pm. the Director of the institute gave a presentation and after that the session was left open for the parents to ask questions to the faculty members and clear their doubts regarding the academic activities of their wards. Various questions were raised by the parents and satisfying answers were given by the faculty members which made the session very interactive.

The Orientation Programme helped the students get acquainted with the facilities, services, personnel, rules and regulations of the Institute.

Dr Akshi Aggarwal, VC GTU addressing the students

Dr N M Bhatt, Director addressing the students

Faculty members and fresher students in Orientation Program

The placement scenario at GIT campus has always been extremely impressive. Most of our students have their career paths charted much before graduation. Almost 140 students from GIT got placed in 2015-16. Over time, our placement process has been refined to make recruitment as simple as possible for the students and companies alike. A team of dedicated placement committee volunteers work to ensure simpler logistics and all other related issues regarding campus placements. Placement has always been an important part of every student's life. This year the campus placement is flooded with the offers for GIT final year students. Many of them got the offers even before they passed out. The placement calendar runs from September 2015 to June 2016.

Placement Snapshot	
Total no of companies Visited	50
Total Offers made to the students	134
No of Offers: CE-40,IT-45,MECH-10,CIVIL-11,EC-13,MBA-15	
Highest Package CE/ IT (L&T InfoTech)	3.00 Lacs
Highest Package EC (Cyberoam Technology)	3.00 Lacs
Highest Package Mechanical (UBER India Limited)	2.50 Lacs
Highest Package Civil (Synergy Systems)	1.80 Lacs
Highest Package MBA (India Mart Limited)	2.40 Lacs
Average Package Per offer	1.80 Lacs

Alumni Talk

Having pursued my bachelor in Computer Engineering from Gandhinagar Institute of Technology, I am very thankful to the college and to the staff members. GIT is the most rapidly growing college not only culturally but also technically under the guidance of Dr N M Bhatt sir, Director of GIT. I have learned a lot in this span of four years which sharpened me in greater amount to be on par with difficult situations. All the faculty members have been doing extremely well for the better prospects of students. GIT has provided a great platform to develop one's technical as well as management skills. There are always some innovative activities which are continuously performed in the institute throughout the year. That further develops a required set of skills developing knowledge and experience in the students. It was a great experience being a coordinator of 'Coding Culture'-The platform for the efficient growth of the students' coding/programming skills under the guidance of Prof. Leena Patel. I am grateful to Prof. Kinjal Adhvaryu, Head of the CE Dept. for providing a positive environment to this unique program.

Finally, I am heartily thankful to Mr. Snehal Barot, Training and Placement Officer for his constant hard work and support to get the students placed in various companies.

Computer Engineering

Hello everyone, I am from the Civil Dept. Each day that I passed in college, was enriched as I learned something new and good from my faculties and friends. My professors assisted me a lot in academics as well as in non-academics. They gave me the confidence, acumen of diligence and belief. This college provided me the dichotomy between the school life and the real life and also helped me for my overa development. Every single experience was enriched.

Management of each and every thing whether it is any fest, program or lectures was really brilliant. Just because of these composite events, I received a glimpse of many new and innovative things. This college has provided me with the proper equilibrium in my life. I, specially, want to thank our Director sir Dr N M Bhatt for providing with this kind of atmosphere over the span of 4 years and I hope it will grow with the same pace in the upcoming time. When I was in final year, the most important thing took place i.e. Placement. I had a confidence on my skills and I knew that whenever any opportunity had come in my way, I had nailed it and it so happened.

I got a placement in VandeMataram Cons. Pvt. Ltd and I want to be thankful to Mr. Snehal Barot (T.P.O.) for his hard work, for showing a constant support and giving the intricate view of the company.

Hi everyone, I am Bhavisha Thakkar, a student from Gandhinagar institute of technology. GIT is one place where a holistic approach towards education has been adapted since the inception of the college. This enables the students to grow to newer heights with each passing day in the fields ranging over a vast spectrum of curricular as well as extra-curricular activities. I am utterly grateful to the college and its faculties member for the invaluable guidance that has been provided to us throughout the entire span of four years.

Under the exemplary leadership of our TPO Snehal Barot Sir, I received placement in Eclinical Works, as a Software specialist, something for which I would remain fully indebted to him and to the entire college staff and administration. GIT is a place where dreams aren't just born, it's a place where they're nurtured and realized.

Hello to everyone, It's my privilege and honour to be a part of GIT Family since past fo years (2012-2016). I attempted my maximum to enjoy each and every moment of my college life along with my studies. I myself witnessed that a number of students gettir platforms in different fields including all arts, sports, science which is the basic need o every college students, along with studies. Apart from this, I would like to thank all m respected faculty members for enriching my knowledge in Mechanical Engineering.

I specially thank to our Director Dr N M Bhatt under whose shade the academy has been fully enhancing talents to individual and ample amount of thanks to our Training & Placement Officer sir, Mr. Snehal Barot for working so hard with placement committee to place our young talented minds in well-organized companies to nurture their future and better growth. Thanks' GIT Family,

Yash Gupta

Hello everyone, I am from Electronics and Communication Department. Each day I have secured something new to learn from my college, my faculties and friends. Whe joined the institution I had a fear of what and how I will do here, what will be my futu But with the constant support from the Director Sir Dr N M Bhatt and HOD sir Prof. Hardik Bhatt and all my faculty members things became easy. They helped me a lot in academics as well as non-academics.

They gave me the confidence and belief to achieve my goals in my life. I had a dream be an engineer and today I am living my dream. I am also thankful to Director Sir for organizing such great fest, programs, seminars and lectures in college. When I was in my final year, the most important thing occurred to me and that was the placement.

I secured placement at Sophos Cyberoam and I am very thankful to Mr. Snehal Barot (T.P.O) for his hard work, constant support offering the much needed view of the company and his guidance. I really want to thank GIT from bottom of my heart for providing me this opportunity.

GTU has introduced Open Source Technology Club initiative for all the GTU affiliated colleges in collaboration with Spoken Tutorial Project-IIT Bombay. To take the benefit of this opportunity, Gandhinagar Institute of Technology has established Open Source Technologies Club (OSTC).

During the academic year 2015-2016, GIT organized various workshop on Linux-Ubuntu, LibreOffice, PHPMySQL, C/C++, Java, Scilab, LaTeX, Firefox, Blender, Netbeans, Ruby, K3B and Python for the students. Registered participants were given material including spoken tutorial videos, software installation files and instruction manuals for installation of software provided by Spoken Tutorial Project-IIT Bombay.

All the departments have participated in various workshops of FOSS with the help of IIT-Bombay Spoken Tutorial Team.

Students Participated at C-102/A

To motivate and inspire the students, to equip them with necessary skills and to provide necessary assistance, GIT has set up Entrepreneurship Cell in the year 2014. Entrepreneurship Cell is an effort to encourage the students to look on entrepreneurship as a viable career option.

Great thinkers and visionaries all over the world have repeatedly predicted India and China as the future drivers of the global economy. At the heart of this economic transition is the entrepreneurial action. In today's knowledge economy Indians are leaving their entrepreneurial footprints all over the world. For US alone India is the leading source of technology entrepreneurs.

Time and again question that is raised on to is, 'how is it that the students of Science & Technology seldom take the entrepreneurship?' and while studies offer knowledge, there is very little opportunity to learn the process of becoming entrepreneurs. Since the objective of the entire studies is for facing the examination, there is hardly any effort in developing the skill and motivation of entrepreneurship within the curriculum.

With a view to create awareness among faculty and students of Engineering and Science courses about various facets of entrepreneurship as an alternative career option, an 'Entrepreneurship Awareness Camp' was conducted at Gandhinagar Institute of Engineering, Gandhinagar. This programme was sponsored by Department of Science & Technology, Govt. of India, through its nodal agency Entrepreneurship Development Institute of India (EDII), Ahmedabad.

Considering the objectives of the entrepreneurship awareness programme and the expectations of the participants, the programme contents, delivery and sequence was fine-tuned on the very first day of the programme. During the entire programme participative learning methods like group work, simulation exercises, role play, case discussions etc. were extensively used in addition to informative lectures with audio-visual presentations. The participants were encouraged to challenge the concepts, ask questions and participate actively in the class-room interactions. The class room learning was supplemented by well compiled course material and handouts.

Three days Entrepreneurship Awareness Camp (from 01-02-2016 to 03-02-2016) was organized by Entrepreneurship cell, of the institute in collaboration with Entrepreneurship Development Institute of India (EDII), Ahmedabad. The Camp was inaugurated by Dr N M Bhatt, Director, GIT Campus and coordinated by Prof. Kinjal Adhvaryu, Assistant Professor and Head (CE). Seventy Five (75) students of different streams attended this entrepreneurship awareness camp. Dr. Kavita Saxena, (EDI) delivered lecture on Camp Objective and Business Opportunities Identification. Several other dignitaries delivered their lectures on different topics related to Entrepreneurship. The main objective of the Camp was to get the students aware about the different areas of skills where they can establish themselves as Entrepreneur and create the job for others. At the concluding session Prof. Kinjal Adhvaryu, Assistant Professor & Head (CE), GIT gave vote of thanks.

Deep Pragatyam by Dignities

Dr. Kavita Saxena, (EDI) delivered lecture on Camp Objective and Business Opportunities Identification

PROGRAMME SCHEDULE

Date and Day	Session	Subject / Topic	Faculty
01/02/16 1 st Day	I	Registration & Inauguration Ceremony	Dr N M Bhatt Dr Kavita Saxena Prof. Kinjal Adhvaryu Prof. SwapnilVakharia Prof. MrugeshKatri Prof. Mitul Maniar
	II	Why and what is Entrepreneurship with ED process & Opportunity Identification & Group Photo Session	Dr KavitaSaxena
	III	Achievement Motivation Training	Prof. Mitul Maniar
	IV	Success Stories of First Generation Entrepreneurs	Prof. MrugeshKatri
02/02/16 2 nd Day	I	Information regarding various activities and policies to support Entrepreneurship	Prof. Kinjal Adhvaryu, Prof. Mitul Maniar
	II	Importance of Market Analysis	Mr. Rohit Radhakrishnan
	III	Psychometric Test- Self Rating Questionnaire	Prof. MrugeshKatri
	IV	Problem Solving – an Entrepreneurial Skill	Prof. SwapnilVakharia

	II	Decision Making Exercise	Prof. Kinjal Adhvaryu
	III	Entrepreneur Interaction/ Visit	Prof. SwapnilVakharia Prof. Mitul Maniar
	IV	Feedback , certificate distribution & Valedictory	Prof. Kinjal Adhvaryu Prof. SwapnilVakharia Prof. MrugeshKatri Prof. Mitul Maniar

“She's a mother, she's a daughter, She's a wife, she's a sister,
She's as thunderous as an intemperate storm, and as dulcet as a peacock's feather.
The power she scintillates is as colossal as the vast skies, she's a woman and she yields for her lows and highs!”

Women's Day is a global day celebration of the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity.

Women's Day has been observed since the early 1900's, a time of great expansion and turbulence in the industrialized world that saw good population growth and the rise of radical ideologies. Women's Day is a collective day of global celebration and a call for gender parity.

Gandhinagar Institute of Technology (GIT) celebrated “Women's Day” on 8th March, 2016 to empower the girl students to achieve their highest in their life by being confident, powerful, self empowered and happy. The celebration was conducted for boy students as well, to make them known the importance of respect, appreciation and encouragement towards women for their economic, political and social achievements.

The very first Women's Day observance was held on 8th March, 1914, in New York. It was organized by the Socialist Party of America in remembrance of the 1908 strike of the International Ladies Garment Worker's Union. This day was observed in GIT with 100 girl students and 66 boy students. Many different activities were conducted which are mentioned below:

- ☉ Happiness Program for people with age more than 20 years.
- ☉ Prisoner Course for prisoners.

For girls:	For boys:
1. How to be Confident	1. Character Building
2. Physical fitness	2. Life with morality
3. Mental Health	3. Role of men in Women Empowerment
4. Stress Management	4. Understanding role of women in life
5. Study Techniques	5. De-Addiction
6. Goal Building	6. Stress Management
7. Spiritual Being	

Participants and Coordinator of E-Cell Workshop with Dr N M Bhatt at GIT

Participants and Coordinator of E-Cell Workshop at Seminar hall A-105

International Women's Day Celebration 2016

This session was conducted by the expert Mr. Rajiv Solanki. He has conducted many Stress Management seminars for professors. He is a regular Student's Counselor. He has been working as the 'art of living' teacher for last 14 years. He also conducted a Yoga course in Rajkot Jail for prisoners. He is an 'art of living' teacher for following courses:-

- ⊙ Youth Empowerment Seminar course for 11 to 16 years of children.
- ⊙ Youth Empowerment Seminar + Course 18 to 30 years of youth.
- ⊙ Art Excel course for kids of age 6 to 12 years.
- ⊙ Happiness Program for people with age more than 20 years.
- ⊙ Prisoner Course for prisoners.

Mr Rajiv Solanki taking session for girls on strength and confidence on international women's day celebration

RC continued to serve the community at its best by acquisition, technical processing and updating the collection and providing access of information to get the knowledge from flow of information. RC aims to develop collection of useful resources to support the educational and research programmes of the institute. There are more than 18000 resources in the RC and around 1000 resources are added every year.

RC is fully automated using "SOUL" software, a state-of-the-art library management software designed to automate all the functions of the library through its six integrated modules, i.e. Acquisition, Cataloguing, Circulation, Serials Control, OPAC and Administration.

In the last academic year, the donations/complimentary resources of around 19 books from Dr N M Bhatt sir, Mr. Umang Patdiwala, ICE GATE were accepted.

In RC, books as well as journals, magazines and CDs/DVDs are procured in the collection. There is collection of around 12561 engineering books, 1344 general books and 2975 of management books. In addition, there are 34 technical journals, 22 magazines and 1908 numbers of audio visual material like CDs, DVDs etc.

SERVICES

1. Reference, Consultation & Circulation: Successfully carried out various reference queries related to books and e-journals during the year which helped students and staff members in their research and curriculum based studies/academic work. Approximately 36000 numbers of resources are circulated among 3000 members during the year.

2. Book Bank: The Book Bank facility helped the socially and economically weak students. During the year 24 students availed this facility and borrowed approximately 143 books from this collection.

3. Information Alert Services: Alerts for new arrivals, arrival of requested resources, details of forthcoming national and international events are regularly mailed to the staff members of the institute for their reference during the year.

4. Library Orientation: User education is an important regular activity of the RC to inform, alert, educate and train users about various resources and services of the RC. An orientation program was organized for newly admitted students for the 2015-2019 batch.

5. Reprography: Photocopying service is one of the important services offered by RC. 0.5 Ps/Page is charged for photocopying. Photocopying is allowed only for RC material. Students and staff members used this facility for photocopying of previous years' question papers of various subjects and for photocopying of magazine and journal articles as well as from reference sources and project reports.

6. RC WebOPAC : There are 6 terminals available in RC for accessing available resources via search criteria like title, author, publisher etc and present status of the RC material and amount of book. Also, by accessing the <http://10.1.3.1/webopac/> link, one can get the status of the RC material as well as the account details of the member 24*7.

7. Automation: RC is fully automated. Every function of the RC has been operated by the software "SOUL 2.0". The SOUL 2.0 consists of Acquisition, Catalogue, Circulation, OPAC, Serial and Administration modules. Each module has further been divided into sub modules to cater to its functional requirements.

8. Membership: The institute is respective member of ISTE (Indian Society For Technical Education) and SESI (Solar Energy Society of India).

The demand of technocrats with innovative ideas is growing worldwide and this has to be met in a sustainable manner. Gandhinagar Institute of Technology organizes various co-curricular activities apart from being focused on regular academics. Following the tradition, GIT organized its annual national level technical symposium called 'TechXtreme 2016' on 3rd & 4th March, 2016. An inaugural function was held at Seminar Hall of GIT on Thursday, 3rd March, 2016. Prizes of worth Rs 2 lac and certificates were distributed among the winners and participants in the grand valedictory.

Shri Gautambhai Shah, Hon'ble Mayor, AMC, was the chief guest of the inaugural function. On this occasion, he appreciated events like 'TechXtreme 2016' for the overall development of the students in today's competitive era. He appreciated the initiative taken by GIT in the field of traffic awareness, cyclothon and clean Ahmedabad. He expressed his willingness to work at grass root level by enhancing the usage of technology at different levels like monitoring Ahmedabad with the help of fibre network through control room for which he needs the support and coordination of engineering students. At last, he congratulated GIT students, staff members and management for various activities undertaken.

Prof. Ghanshyambhai Thakkar, honourable trustee of the institute assured support for any new initiative in the interest and favour of the students in response to Shri Gautambhai Shah's remarks. He told that Techfest is an excellent way of increasing one's bank of knowledge and creative ideas. GIT Family is indebted to Mr. Vinay Rohera and Mr. Rushabh Shah for providing endless support in all respects.

Dr N M Bhatt, Director, GIT expressed his views that 'TechXtreme 2016' would provide a good platform to budding engineers to showcase their creativity, techno-managerial skills and multi facet talent. In 'TechXtreme 2016' more than 3000 students of 50 colleges across Gujarat participated in more than 42 activities.

TOTAL REGISTRATION		2033

Events of Computer and Information Technology Departments

Blind Coding was based on C/C++ programming competition where participants wrote the program for given problem. It mainly tested participants' concentration, accuracy, programming skills and visualization power. Participant solved the given problems with monitor screen kept off with blind fold.

Sher'lock was a computer based detective event in which participants were provided some hints to find the hidden treasure and solve the clues. They were targeted to finish the task based on previous questions. Linking and solving all the clues helped the participants to find the treasure.

Webcraft was based on Front End website designing. Participants had to design a website on provided problem definition with the use of mock up tool; HTML, CSS, XML and JavaScript. Swap-e-Code was based on Computer programming languages (C, C++, Java) and tested the participants' programming skills, visualization power and team coordination. The number of bugs, code quality and style were the deciding factor for team qualification.

ProGramming was based on Computer programming languages (C, C++, Java) and tested the participants programming and analysis skills. Participants solved a set of logical or mathematical programming problems according to provided specifications.

Tri-the-Code was computer based program where programmers got a platform to show their skills. A participant had to write one line code and then pass it to the other. They were not allowed to alter the code written by their team members. Each participant was provided a user id and password to start and write the code through chat box.

Hackathon was based on SQL injection queries and logical thinking. A team of members had to retrieve data as well as its structure from the given website manually or by using any hacking tools. Participants solved the given problems by the knowledge of Database, SQL, Linux commands, HTML and JavaScript.

Web Craft

Programming

Events of Electronics & Communication Department

Bluetooth Ardo-Bot was an event in which participants had to bring their own bluetooth enabled robot controlled by a smartphone. There was a unique path laced with hurdles like slope, sand, unstable surface, bridge etc. The group which completed the rounds in minimum time, was declared as a winner. From this event, students acquired the knowledge on robotics.

Bomb Diffuser was an event in which certain clues were given to the participants based on which they had to type the code using keypad for defusing dummy bombs by decrypting the correct code to qualify the round. Students gained the knowledge of encryption and decryption techniques doing such activities.

Chase the wave was designed for the aspirants of wireless communication. It was all about finding out three hidden transmitter from a given area by tuning the frequency transmitted by the antenna. Students got the basic idea of the modulation techniques used in the current Radio Communication.

Circuitrix was an event in which participants indulged in finding and correcting faults from the circuits in first round. In second auction round, the participants played the quiz for earning points to buy components for the third round. In the third round, they had to build the circuits utilizing components which had been bought from previous round. Students gained the knowledge related to various circuits.

Walk on Fire was an event in which participants entered in a dark room full of smoke (fog). For each round, they had to bring the object from the other end of the room without touching the laser. If they cut the laser, they would be disqualified from the round. Those who took the minimum time were declared as the winners. Students gained the knowledge about the Laser Communication

Bluetooth Ardo-bot

Bomb Diffuser

Events of Electrical Department

Blind Bot was a race of four wheeled robots divided into three rounds, where bot had to complete number of checkpoints comprising of numbers of hurdles in a given time period. The bot had to cross numbers of hurdles looking through the projector screen like a video game by the means of wireless transmitter-receiver module.

Aqua Combat was a water race competition of automatic boats where participants had to design an automatic or remote controlled boat that had to pass through the different checkpoints and hurdles. Speed and Accuracy both were essentially required for winning the race.

The Circuit Challengers was the event with an aim to boost the fundamental knowledge in the area of circuit designing, connection and debugging. It was divided into three main rounds, where participants were needed to connect the various circuits and to find bugs in the circuit given to them to avoid an occurrence of an error in practice.

Dream Machine was the event which was about designing the transformer with proper specifications and to make it in a proper way. Participants had to design the rectifier circuit which needed transformer to be designed precisely. The event was very inspirational and helped them to exhibit their technical skills.

Mine-O-Bot challenged the power of robots to overcome all the electrical, magnetic as well as mechanical hurdles placed on the way. There were many surprises for participants' to test as to how much electrical thrust-resistant

Blind Bot

Mine-O-Bot

Tc²(The circuit challengers)

Events of Civil Department

Cant-O- Mania was a model making event in which participants prepared a cantilever beam model from home using candy sticks as per the given criteria. They were judged on the basis of its load bearing capacity, moment carrying capacity and deflection.

City traveller was about solving the problem of existing transportation in given city. Plan of existing city and a tracing paper were given to the each team and they had to draw and explain an alternative root on the tracing paper with alternative transportation system. They were judged on the basis of the cost effectiveness and the building, by laws.

Colrefs was the model making event in which participants had to build a structure in predefined area with the help of wooden blocks of different dimensions. Participants had to build a structure in a way that it should withstand safely after removing the number of blocks.

Mind Over Matter was the pure technical debate competition based on the emerging trend and current issues in civil engineering. Participants had to express their opinions on the hard core construction problems and current trend in today's developing era.

Nirman was the model making event. All the participants had prepared a model of city from the waste materials. They were judged on the basis of innovative concepts, the aesthetics of their model and smart utilization of materials and virtual money.

Cant-o-Mania

Model Presentation (Smart city)

Colrefs

Cant-o-Mania

Events of Mechanical Department

Beast of Burden was based on pick and place concept in which robots had to perform different tasks like filling pit using objects, pick and place object on some height etc. The robots should have proper mechanism for completing the task. All the tasks of a particular round were to be completed for further round qualification.

Clash of Bots was based on robot wrestling in which two robots had to fight with each other with some obstacles in path, which might be used as advantage or disadvantage. The fights were based on knockout format.

Hot Pursuit was a robot racing event with obstacles on the track. The participants' robots had to cross the finish line before minimum time to qualify for the next round and win the event. This event helped students to make their own robots with their creative mind.

Hydronova was an event, in which robots played water polo game. It was an event based on the controlling of robots in water and land surface with some gaming fun. The concept of overall event was based on three games: water polo, football and ball pool. The artificial waves in water were generated as an obstacle for robots.

Junkyard Wars was based on "best from waste". In this event, teams were given the treasure of scraps from which they had to create wonders with their innovative ideas. This was the best platform for students to showcase engineering skills and knowledge about how things work.

Phoenix was a game based on the idea from Aamir Khan's famous movie '3 Idiots' in which he made a quad copter. Here the platform was given to students to prepare their copter for the completion of the given task. Different tasks were given like copter pass through loops, bends, underpass, overpass and secret paths placed in random sequence, along with an aerial track ending to a balloon testing pilot.

Clash of bots

Beast of burden

Hot Pursuit

Events of Mathematics Department

Speed Cubing is an activity of solving a variety of puzzles. The event was divided into total four rounds. In each round, various cubes were solved by qualified participants. The participants who took the minimum time were declared as winners.

Flakes and Adders is a mathematical fun event and the replica of the household game - Snakes and Ladders. The participant reaching the mouth of snake had to go to the tail only if they were not able to give correct answers of mathematical questions. The same rule was applied for the participants who had to climb the ladder. The participants who took the minimum time by reaching the final destination on the flakes and adders board were declared as winners.

MatheMagician is about checking the logical ability of the participants. In this event, the qualified participants solved some tasks like puzzles (Sudoku, Arrange Me etc.), questionnaire based on differentiation and integration utilizing minimum time.

Jump to Conclusion is a mathematical fun event in which participants solved mathematical questions taking minimum time and required to reach at the specific area in maximum speed. Such events boost confidence within students.

Mathematician

Speed Cubing

Jump to Conclusion

Events of MBA Department

Corpo AD is a very famous event amongst budding managers. Students participated and designed a logo, punch line and jingle based on the theme given to them. They also presented a drama on the spot in a group.

Corp Quiz is the greatest tool to check contemporary knowledge of the business world in the mind of participants. This event had collection of many interesting rounds ranging from elimination, rapid fire, audio visual aids and memory retention.

Corpo Plan is a decision-making exercise. The content and format of the business plan are determined by the goals and targeted people. Participants presented a wide variety of business plans during the event. Audience and judges appreciated the presentation of the business plans in a delightful manner.

Gaming

NFS was a game where the players selected one car and raced against a time limit to reach a destination. Police chases had also been integrated into certain racing sessions, in which the police employed vehicles and used tactics to stop the players' car and arrest the player. As players took control of faster cars, the oxide meter got refilled automatically for the first time.

Counter strike is the most famous and frequently played game in electronic sports in First Person Shooting (FPS) category. The tournament followed knockdown format, in which two teams from all registered participants had competed at a time and the survivor became the winner.

FIFA 11 was a soccer simulation game by EA sports. Players were chosen from over 500 real teams across national and international leagues and engaged in realistic soccer matches.

DOTA was a multiplayer online battle arena mode for the video game: Warcraft III: Reign of Chaos and its expansion, and Warcraft III: The Frozen Throne. The objective for each team was to destroy the opponents' Ancients, heavily guarded structures at opposing corners of the map.

Corpo Quiz

Pro Night with Meet Bros and DJ Rink

On the first day of Techxtreme 2016 of Gandhinagar Institute of Technology has organized a fantastic musical night with "Meet Bros", "Khushboo Grewal", and "DJ Rink".

Pro Night with Meet Bros and Khushboo Grewal, with DJ Rink

Prof. Hardik Bhatt, Prof. Rahul Vaghela and Prof. Amit Patel successfully coordinated the whole event under the patronage of Dr N M Bhatt, Director of GIT. Mr. Manthan Patel (GS), Lalit Krishnani (SS), Miss Setu Shah (LR) did a wonderful job during the whole event. Mr. Dhaval Shah (GIT) supported in a congratulating way.

4th March, the second day of the Tech-Xtreme, 2016 arose with the much heightened spirit of the winning events. To conclude the event, Valedictory Ceremony was organized and was graced with the presence of Mr. Haresh Rohera, Mr. Ghanshyam Thakkar- the trustees and Dr N M Bhatt the director. To appreciate and encourage students, the prize of 21000 was given to the winners of the Short Film Competition organized by GIT. Total 8 teams participated in this competition and made films with the theme of "How Basic Engineering Helps the Students in Day to Day Life". The evaluation criteria was the combination of online judgment (likes, viewership, online voting etc.) and Expert's decision. The judge of this competition was Mr. Rihaan Patel, a budding Indian filmmaker - a freelance film director, screenwriter, editor and visual effects consultant. The team who made a film with the title "Being Abhiyanta" was declared as a winner. Followed by it, a prize distribution ceremony was organized to motivate the winners and the runners up.

If you talk about cultural: JAZBA, the Cultural festival of Gandhinagar institute of Technology, has established itself as the greatest fest this year. Really a Fest-to-remember.

Gandhinagar Institute of Technology, Managed by Platinum Foundation celebrated its grand gala annual cultural festival JAZBA 2015 on 24 September, 2015 Friday. It showcased various events like Antakshari, Film making, Rangoli, Debate, Graffiti, Singing, Dancing, Skit, Fashion Show and many more. The day events were followed by musical evening programme in which multi talented students from various branches performed in various events like Skit, Solo & Duet Singing, Solo & Group Dance etc. Famous Bollywood Singer Mr. Aditya Narayan was the star attraction of the evening programme. Ms. Deepal Trivedi Editor, Ahmedabad Mirror was the chief guest of the evening show. She along with Shri Ghanshyambhai Thakkar, Trustee of GIT motivated the students with their brief speeches. Prizes & trophies were given to the winners of various events. Huge Media coverage was attained during the show. Director, Dr N M Bhatt congratulated Mr. Manthan Patel, GS & his team for making JAZBA 2015 a grand success.

GIT Family is indebted to Mr. Vinay Rohera for his wholehearted support despite of his busy schedule.

Navratri is the sacred and joyous festival of the Hindu community in India. It is devoted to the worship of the divine Mother in various forms under different names by different people.

Inculcating a sense of culture and unity is the essence of any Indian festival and Ratri Before Navratri in Gandhinagar institute of Technology is a portrait of colour, action, music and togetherness. It was celebrated on the front lawn on 9th October, 2015 in a grand manner. Youthful students & faculty members of the Institute participated in this grand gala Annual Garba Event on the beats of famous Orchestra of Arvind Vegda. This fiesta of glistening traditions and pious feelings was full of performances and activities which were keenly intended to cherish the student life. Prizes were given to the winners of various categories like best costume, best solo dance, best group dance etc. Huge Media coverage was attained during the Garba Night. Director Dr N M Bhatt congratulated Mr. Manthan Patel and his team for making Ratri B4 Navratri a grand success. The exuberant event ended with the desire to meet next year on Navaratri with extra zeal and vigour.

Indians have always been very enthusiastic about celebrating festivals in unique ways. "MAKARSANKRANTI" is one such festival. To continue the same spirit, "GIT Kite flying Festival - 2016" was organized by Gandhinagar Institute of Technology on 13th January, 2016 on the terrace of the of 'B' block. Total Thirty-one teams participated in the competition and the teams were divided into two slots of fifteen and sixteen teams respectively.

The kite fight began amid the rhythmic beats of DJ and cheers of participants. There was continuous howling of "Kaipo che", "Lapet" etc. which reflected passion and enthusiasm of the spectators as well as the participants.

In the evening the winners were declared of Kite flying 2016 and certificates and prizes were given. Manthan Patel (GS) and his team managed the event in a congratulating way with the coordination of Prof. Hardik Bhatt and Mr. Dhaval Shah

Trustee, Shri Ghanshyambhai Thakkar and Dr N M Bhatt during Inaugural Session

GS, Manthan Patel welcoming Trustee, Shri Ghanshyambhai Thakkar

Enthusiastic Participants

According to Tim Duncan, "Good, better, best. Never let it rest. Until your good is better and your better is best." With this very thought of not just commemorating victories, but also to cultivate good camaraderie, and impart lessons of sportsman spirit and leadership qualities in students, the much awaited Annual Sports Meet was organized on 22nd February, 2016 in the Gandhinagar Institute of Technology College Campus with fervor, excitement, and frolicsome atmosphere. Students and faculties were at their harmony to organize panoramic programs related to a wide array of colorful and ardent sports events. Gandhinagar Institute of Technology has formed a "Sports Committee" since academic year 2013 for bringing out talent in students and giving them a platform to perform in sports events organized by college, other colleges and GTU.

The whole event was organized not only inside the GIT Campus, but also at some prime Sports locations of Gujarat State. There are 9 sports activities conducted (5 outdoor & 4 indoor), in which 600+ players in cricket, 400+ players in Volleyball, 250+ players in Kabaddi, 600+ players in badminton, 350+ players in Carom, 150+ players in Table-Tennis and 180+ players in Chess, have participated in the competition.

The honorable chief guest Mr. Nirav Rajasuba (High Profile Gujarat State chess player) inaugurated the event with an inspirational speech. He motivated the students to participate in sports activities as sports keep one physically and mentally fit and also inculcate discipline, brotherhood and true sportsmanship. Dr N M Bhatt, the director of GIT, being the leader of this event also motivated the students with an encouraging speech. With his exceptional Management skills, he guided to conduct the whole event very smoothly and successfully, especially organizing the event on one of the best outdoor grounds for cricket (SGVP Stadium), Football (Kahaani Club), Basket Ball (Sports Complex) & March-Pass inauguration event.

First time in GIT history, a welcome guard of honor has been given to the chief guest followed by breathtaking performance of different horse riding activities performed by one of the best GIT Athlete Manthan Patel. Students have united in different colors during March-Pass event and took an oath to play with enthusiasm and with the spirit of sportsmanship. This year GIT had booked a State level cricket ground (SGVP Stadium) for its final cricket match (22nd February, 2016), State level Football ground (Kahaani Football Club) for its league as well as final matches (5-6th March, 2016) and State Level Basket-ball court (28th February, 2016) for its league as well as final matches. In all the events, there were tremendous horde and lots of supports for individual teams as well as for GIT.

Student Playing football match during annual Sport week

Inauguration Ceremony at SGVP, Chharodi

Final Round Cricket Match at SGVP, Chharodi

Final Round Cricket Match Winners

It is a matter of immense pride and satisfaction that Gandhinagar Institute of Technology had organized Annual Sports Activities 2016 successfully in the month of February. The support and influence for different sports activities from students as well as staff was tremendous and very energetic.

Sports Events have always been for students and by the students. Sports keep them physically and mentally fit and also inculcate discipline, brotherhood and true sportsmanship. Their hard work and desire to make an event success was outstanding and GIT Annual Sport 2016 was one of the very good example of it. Students, faculty members and staff participated with great enthusiasm and showed their game spirit.

Gandhinagar Institute of Technology is always dedicated to enhance and extend the knowledge of the students. Currently world is moving towards the Automobile Engineering. To get the practical knowledge of this field a two day national level workshop on "Vehicle Dynamics" is hosted by Department of Mechanical Engineering and organized by Carmate Tech Centre in association with SAEINDIA on 10th and 11th September, 2015. This national level workshop is to encourage and motivate the students about Automobile.

Workshop on Vehicle Dynamics was successfully organized by coordinator Prof. Umang Patdiwala, (Hod-MED), Prof. Hitesh Patel and Prof. Hardik Gohel and student coordinators fromth5Sem Kaushal Pandit and Pratik Shah worked very hard.

Workshop Objectives

This workshop is designed to understand the basic concepts of vehicle dynamics.

- The application and understanding at vehicle level.
- Calculating various vehicle dynamics parameters on a vehicle.

Day 1:

The workshop officially started at 10.00 am after the formal inauguration ceremony from Mechanical Engineering Department. Shaan Varma (Part of judging panel of BAJA organized by SAEINDIA and Organizing committee member of BAJA 2015) was heading the session of day one, which was basically a theory session including various topics of automobile vehicle dynamics.

Session went on filled with inspiring, motivating and informative interaction. Student showed up their deep enthusiasm. Trainer and the students both put their best and the session got a pause at 4.00 pm.

Day 2:

The theory session again continued with revitalized energy on the second day and completed by the lunch at 12.00 of noon. Practical session was followed after the lunch. During this session various vehicle dynamics parameter were measured by participant students that includes ADR angle, Turning Radius, Vehicle articulation and CG calculation. Entire strength of participants was divided into 4 groups (each consisting of 18 members).

All the four batches had calculated all the parameters turn by turn. The participants had a lots of queries opening a new horizon of technical awareness with their answers.

Finally with the full support of college management, excellent work contribution of the organizing team and enthusiastic participation of the students, was successfully reached the end of the event by 4.00 pm.

Theory Session

Practical Session

Objective:

Workshop on “Basic of Fire & Safety and Personal Survival Technique” was organized to aware the students about Human & Fire Safety. Main Focus is to aware the students how to take emergency steps when accident happens.

Programme:

“Basic of Fire & Safety and Personal Survival Technique” was organized by jointly coordination with Fire and Safety institute and National Safety Council at Gandhinagar Institute of Technology. In the Workshop 202 students were participated from all the branches.

Initially Session was commenced by Jayesh Mevada Sir (Retired Army Officer) who had explained about human safety and concerned about following factors:

- ⊙Recognize the benefits of knowing first-aid and CPR.
- ⊙Identify proper procedures for a variety of medical emergencies.
- ⊙Assist in administering first aid when a co-worker is injured
- ⊙Make sure the injured person doesn't get harmed further. And he signified following objective:
- ⊙Medical emergencies can happen anytime.
- ⊙Act quickly, calmly and correctly.
- ⊙Consider being certified in first aid and CPR.

After the Lunch Session Abhishek A. Shukla sir, (Director and Principal Institute of Fire and Safety Science) has covered following topics:

- ⊙Fundamentals of Fire Engineering
- ⊙Usage of Basic Fire Fighting Appliances
- ⊙Fixed Fire Fighting Installations
- ⊙Major Fire Fighting Systems and Special Installations
- ⊙Specific Risks
- ⊙Industrial Safety & Maintenance Engineering
- ⊙Fire Mock Drill

After completion of theory session fire mock drill was held on ground at 03:00 pm. in which students learnt how to apply fire extinguisher when fire accident happens.

Theory Session on Personal Survival Technique

Theory Session on Fire Extinguishers

Demonstration of PPE

Practical Session

A Workshop on Automobile Mechanics and IC Engine Design Organized By Robosapiens India (IIT-Delhi) and Hosted By Gandhinagar Institute of Technology on 16th & 17th February, 2016

Workshop on Automobile Mechanics and IC Engine Design was successfully conducted by Mr. Ankit Jain and Mr. Edwin Joy, Research Associate Robosapins Pvt. Ltd. in coordination with faculty coordinators Prof.Umang Patdiwala, (Hod-ME) and Prof. Shaival Parikh. For successful completion of workshop the students who had done work as Student Coordinators are Piyush Baid (8th Sem), Jay Javia (6th Sem), Darshan Katariya (4th Sem), Kuldeep Tiwari(4th Sem), Patel Rishil (2nd Sem) and Jani Dharmarth (2nd Sem).

Workshop Objective:

This workshop was designed to provide an insight view in the field of automotive and engine design to the students. The objective of the workshop is to explain concepts in detail with the help of theory and dedicated animations to enable students to visualize things before practically working on it and provide students with the hands on experience of assembling and disassembling engines.

Day 1:

The workshop started by 9:30 am after the formal inauguration ceremony. Mr. Edwin Joy was heading the session of day one, which was basically a theory session including various topics History of Automobile and Chassis Design of automobile engineering.

After 11:00 am Mr. Ankit Jain was heading the session of day and completed the basics of I C Engine. Practical session was followed after the lunch. Trainers got Bike Engine for demonstration. The students got hands on experience and detailed analysis of the engine parts, its function and location in the engine.

Day 2:

The theory session continued with revitalized energy on the second day. Mr. Edwin Joy was heading the session of day two, and explained the braking system. Mr. Ankit Jain explained the Suspension System. Transmission System and Steering System. Practical session was followed after the lunch trainers had assembled the Engine Dissembled on day one. The participants query resolution and healthy discussion on various topics had opened a new horizon of technical awareness in the students.

The event was followed by a quiz contest and feedback session analysing the outcome of the workshop. Thereafter kits (Booklet and CD) were distributed to students. Finally with continues support of college management, excellent work contribution of the organizing team and enthusiastic participation of the students, event ended at 3:30 pm.

Theory Session

Total 81 students participated in the workshop from that 20 students are qualified for the final round held at IIT-Delhi on 26th to 28th February, 2016. The team stood 3rd and 4th position in this national level competition. Brief of this winning journey is as follow.

Day 1:

On 26th February students went to IIT Delhi for registration of championship. The championship started by 2:00 pm. after the formal inauguration ceremony. Total 30 teams (all over the India) are registered for the event.

Day 2:

First round was held on 27th February at 2:30 pm. which includes multiple choice questions related to field of internal combustion engine and Automobile. All teams participated in the first round. After the end of the first round result was declared and top 10 teams qualified for the second round from which 4 teams of GIT qualified.

Day 3:

Second round was held on 28th February at 3:00 p.m. and that was the practical round. The task was to mount Dog clutch and other parts if possible with the gears in 5 minutes. After the end of the second round result was declared and top 5 teams qualified for the second round from that 3 teams of GIT qualified.

For final round, the task was to mount cylinder, crank shaft, timing chain and piston in 1 minute. And at the end, top 3 teams were selected in which one team formed by Harsh Kothari and Harshil Parikh of GIT secured third position.

They were awarded by Trophy and Silver Medal.

Automobile IC Engine Championship			
Sr. No.	Name	College Name	Position
1	Mohd Saad	AIET Lucknow	First
2	Arvind Kumar Sharma	AIET Lucknow	First
3	Jaskaran Swalia	AIET Lucknow	Second
4	Hamzah G Shafeeque	AIET Lucknow	Second
5	Harshil N Parikh	Gandhinagar Institute of Technology	Third
6	Harsh A Kothari	Gandhinagar Institute of Technology	Third
7	Meet Bhatt	Gandhinagar Institute of Technology	Fourth
8	Manthan Bhatt	Gandhinagar Institute of Technology	Fourth
9	Soham Joshi	Gandhinagar Institute of Technology	Fourth
10	Pranshu Pandva	Gandhinagar Institute of Technology	Fourth

Winners of RoboTryst-2016 held at IIT Delhi on 26th - 29th February 2016

Participant students of GIT and IIT Delhi

Programme:

Gandhinagar Institute of Technology always put efforts to nurture world class engineers who can stand strongly with their interdisciplinary and creative knowledge in this era of competition. The same had been proven yet again when 'Mechanical Engineering Department' hosted an aeronautic based workshop on 9th and 10th February, 2016. Workshop was organized by Codex Design under 'National Technology Awareness Campaign (NTAC)' in association with Shastra'16, IIT Madras. NTAC organizes series of workshop to promote the new age engineering education and its interdisciplinary application to motivate young graduating engineers to find creative and innovative solutions for the society. Total 84 students from mechanical, Computer, IT, Civil and Electrical department had participated in the workshop.

Workshop Objectives:

- ⊙ To deliver aeronautics, electronics, mechanical and programming fundamentals, that works behind the UAVs i.e. Unmanned Aerial Vehicles.
- ⊙ To make the students aware about the Research & Development growth in this discipline.
- ⊙ To give hands on experience, in which students assemble the Quad Copter kit through the knowledge they gained in theoretical sessions.

Sessions:

Day 1:

Workshop was started at 9:30 am on 9th February, 2016. with a welcome speech of Prof. Manthan Upadhyay. In the theory session following topics had been covered by Mr. Sundar, an Industrial Expert from Codex Design.

- ⊙ Introduction to multi copters, its working principles
- ⊙ Quad copter frame design
- ⊙ Embedded system design
- ⊙ Introduction to the sensors like accelerometer, gyroscope, compass.
- ⊙ Radio Transmitter and Receiver
- ⊙ Electronic speed controller

Day: 2:

Unassembled kit of quad copters were given to all 12 groups, each consisted of 7 members. Kit contained KK Board, Electronic Speed Controller, Propellers, 4 BLDC motors, 11.1V Lipo battery, 2.4 GHz Radio Transceiver Module and other supporting tools. Through the guidance of both the instructors, students started assembly of the kit. Trouble shooting and simulation of kits were done by experts whose assembly is done successfully. All the participants were then transferred to front lawn and flying session of quad copter was demonstrated by experts.

Theory Session

Assembly Session

Assembly Session & Flying Session

Flying Session

A one day workshop on “Energy Conservation Awareness” sponsored by Gujarat Energy Development Agency (GEDA) was held at the Department of Mechanical Engineering of Gandhinagar Institute of Technology on 12th August, 2015 with the strength of total 165 students out of which around 125 students are from Mechanical Engineering and 40 students are from Electrical Engineering. This workshop was coordinate by Prof. Nirav Joshi, Asst. Professor of Mechanical Engineering Department under the guidance of Dr N M Bhatt, Director.

The aim of this workshop was to create awareness for energy conservation. This workshop was based on Energy Conservation Awareness where the advancement of energy conservation and its importance with role of co-generation was discussed by Mr. Raju Shah, Director, Escon Tech and Mr. Snehal Dave, owner of DEV Engineering. They had shared their thoughts on energy conservation techniques in thermal and electrical utilities like boiler, pump, compressor, lighting system and electrical motor etc. Through this workshop students learnt the recent trend of energy conservation and enlightened their knowledge in the field of Energy Conservation.

Dr N M Bhatt Director with Dept. Head & Experts

Lecture Delivered by Mr. Raju Shah

Theory Session

Valedictory Function

Gandhinagar Institute of Technology is always dedicated to enhance and extend the knowledge of the students. Currently world is moving towards the automation. To give the practical knowledge of the automation and robotics to the students, a two day International Workshop on “Robotics” had been hosted by Department of Mechanical Engineering and organized by RoboSpecies Technologies Pvt. Ltd. in association with IAO (International Accreditation Organization) on 6th and 7th October, 2015. The purpose of this international level workshop was to encourage and motivate the students about application of robotics in the actual world.

Robotics by RoboSpecies Technology in Association with IAO (U.S.A) was successfully organized by coordination with the faculty coordinators Prof.Umang Patdiwala, (Hod-MED), Prof. Manthan Upadhyay , Prof. Himanshu Barot and Prof. Paranjay Patel. For Successful completion of workshop, the students who had done work as Student Coordinator are Pandya Divya (7th Sem),Rathod Siddharth(5th Sem) and Shah Hitarth (5th Sem).

WORKSHOP OBJECTIVES

This workshop was designed to understand the basic concepts of application of robotics.

⊙Understanding to the general hardware and software required for robots like Embedded System, Sensors, Arduino software etc.

⊙Controlling the robots and various systems like LED's, motors etc. using various modes like mobile, software, sensors etc.

Day 1:

The workshop officially had started by 10.00 am. after the formal inauguration ceremony by, Mechanical Engineering Department. Mr. Arpit Gupta (Research Engineer from RoboSpecies Technologies Pvt. Ltd.) was heading the session of day one. One robo kit was provided per group containing 7 students. First session was the introduction to the robotics including an application followed by introduction to the embedded system along with the understanding and working of the microcontroller and microprocessor. Session included installation of the Arduino software on student's laptops and then followed by practical work by the students. At the end of the first day, students were able to control the different LED's pattern and buzzer with their program in the Arduino software. Students showed up their deep enthusiasm towards it. Trainer and the students both put their best and the session got a pause at 4.00 pm.

Day 2:

The practical session continued with introduction of the new circuit boards to the team which give them brief practical experience of working and operating of different infra-red sensors, potentiometer, IC's, motor drive shield etc. Students understood and could customise it according to newer applications. Session was followed by the assembly of the car from the kit given and concept of controlling the car using the mobile phone was explained. Students successfully assembled the car and circuit boards, understood the concept and run the car on the floor using their mobile phones. Practical session was followed after the lunch.

During this session trainer was checking the car assembly, circuits and programing done by participant teams, followed by the solving doubts of the students. Then trainer took interview of all 11 teams and selected 3 teams for the close robotics competition at IIT Kharagpur. Certificate of Merit were given to the top three teams by the Prof. U J Patdiwala, HOD Mechanical department.

Finally with the full support of college management, excellent work contribution of the organizing team and enthusiastic participation of the students, the day 2 was successfully reached at end by 4.00 pm.

Theory Session

Practical Session

Merit Certificate Distribution of Winning Team Students

The report below chronicles the activities of Team Nashorns, Mechanical Engineering students, from Gandhinagar Institute of Technology, who manufactured and presented an ATV in March, 2016 in an extremely demanding national level event, Mega ATV Championship 2016 at DLF Cyber City Bhubaneswar.

About Mega ATV Championship:

Mega ATV Championship is a student design competition which follows the standards of the international BAJA SAE® competition held all over the world in various countries. The objective of the competition is to simulate real world engineering design projects and provide students with a challenging project that involves the planning and manufacturing tasks found when introducing a new product to the consumer industrial market.

The Journey of Team Nashorns started with written test and Personal Interview: The basic foundation of any endeavour is the people who are chosen to rise up to it. The written test and personal interviews helped in determining who, amongst those who applied to be a part of the team, would show unwavering dedication to the cause while possessing the prerequisite technical and non-technical skills.

Written test:

Final Planning: Team Namshorns is a team comprising of 20 enthusiastic Mechanical Engineers and 2 Faculty advisers. Nashorns is a German word which means baby rhino as our predecessor's name was Team Renosters meaning rhino which is a symbol of strength. So Team Nashorns is an in kind tribute to our predecessors Team Renosters. And just like a rhino, our ATV also has incredible strength. It took 6 backbreaking months to erect this dream machine.

The entire ATV is fabricated using ST-52 alloy which has allowed us to lower the weight of the buggy and is 230 kg. The front suspensions are Double Wishbone type suspension system with a motion ratio of 0.7, whereas in the rear we have Trailing arms. Both the suspension systems are equipped with Polaris spring and dampers. The transmission given for our ATV is a CVT, coupled with a Dana Spicer H-12 FNR gearbox with a gear ratio of 13.25:1 for extracting and using the maximum power delivered by our 10 hp Briggs and Stratton engine.

Disc brakes are used in the front as well as in the rear wheels with discs of 190 mm and 220 mm respectively. The buggy is also equipped with head light, fog light, horn, brake light and a reverse light and alarm. Hence, to sum it all up, this ATV is all set to take on any given terrain

Launch Event (24th February, 2016): The event was graced by the presence of the parents of the students and the trustees of the college. The event was also attended by news crews from the Sandesh, Navgujarat Times, and Ahmedabad Mirror amongst others. On 26th February, the vehicle was loaded and transported to KIIT, Bhubaneswar. The vehicle was accompanied by 19 of the team members and faculty advisers.

Written Test

ATV Launching Day:

The Event (4th to 8th March, 2016) at DLF Cyber City, Bhubaneswar:

The first two days of the event involved implementing changes that the judges suggested for our vehicle and contained the static events. On the first two days, we also gave our Brake Test and Drag Race, in which we ranked the 9th position out of 56 teams present.

Day three included Manoeuvrability Test. The team cleared all of the tests without much trouble.

Day four of the competition included dynamic testing of each vehicle. A total of three events was held on this day

1) Earthquake Simulation, 2) Flood Simulation and 3) Blackout Race in which the vehicles are challenged by a suspension course, a flood simulated track, and a speed and endurance test.

Manoeuvrability Test

Flood Simulation

GIT is to grateful to the sponsors Khodiyar CAD centre PVT.Ltd, Atul Auto, CVTech AAB, BB Casting and Gravity Casting. The team members are thankful to the multitude of people on the college campus that helped the Team complete the arduous journey. Special thanks to the Director sir, whose exhortations kept the Team going despite the adversities.

Prof. Hardik Gohel and Prof. Hitesh Patel were the faculty advisors and Banshi Khubchandani, Pratik Shah, Kushal Pandit, Divya Shah, Deval Joshi, Mayur Patel, Mitul Patel, Niraj Patel, Kishan Patel, Mohammedabrar Shaikh, Kashish Shah, Harshil Patel, Harshil Zaveri, Anik Mardia, Mann Fasra, Shrenik Lalani, Aakash Pillai, Harsh Sojitra, Vivek Niar, VidishaVyas are the student team members of the team Nashorns.

Formula Student is the world's most established and competitive global student motor sport competition. Universities worldwide compete to design, build and race the best single-seated car using cutting edge innovative technologies, while allowing students to develop their engineering skills and knowledge. This year Formula Student INDIA 2016 was held at Buddh International Circuit, New Delhi from 23rd to 28th January, 2016. Fifty teams from all over India showcased their talents and cars.

Gujarat Technological University initiated GT Motor sports – A Formula Student Team to represent GTU in National Level Competitions with an aim to provide practical knowledge to the students from every college affiliated to GTU in 2014. Till date GT Motor sports has participated in 2 competitions namely Formula Student India 2015 and SUPRA SAE INDIA 2016 held at Kari Motor Speedway, Coimbatore and Madras Motor Racetrack, Chennai respectively.

Special thanks to Honorable Dr. Akshai Aggarwal, Vice chancellor GTU for providing students such a platform to showcase their talent and also to Naresh Jadeja, Deputy Director GTU, for guiding the students, helping them manage the team and linking students to the University. Prof. Hardik R Gohel was the faculty coordinator of the event.

GT Motorsports - Formula Student Team GTU is a state level collaboration between 13 colleges spread across Gujarat state. These colleges share physical and intellectual resources by using advanced communication-technology to create a highly competitive vehicle. The supply chain management is unique in Formula Student and very important at that point. Gandhinagar Institute of Technology is one of the college of those 13 teams. Students from GIT (Mechanical Engineering Dept.) as follows with their respective departments.

Day 1:

During the 1st day of the event, the technical Inspection which is the first test every team has to pass through, were open for all the teams. GT Motorsports made some final preparations in the car and moved for the Technical Inspection Bay to get their car inspected. Few minor changes were advised in the car as per the technical inspector inspecting the car.

Day 2:

The team worked on correcting the errors which were pointed by the tech inspectors and later during the day, appeared again for the technical inspections. The result this time was improvised, but there were still some minor changes which the team had to work upon before finally clearing the technical inspections.

Day 3:

The team was supposed to appear in the Design and Cost events starting from 9:00 am. The team reported to the Cost Event Bay on the scheduled time along with the Car and the Driver. In the cost event, the team has to present in front of the judges the detail costing of the car and have to answer the questions of the judges accurately.

Day 4:

The team appeared again for the technical inspections and finally cleared the test. All the technical aspects of the Rulebook were cleared by the car. After clearing the Technical Inspection, the team further moved towards other tests that were in line to clear before participating in any event.

Day-5

GTM16 was lined up on the 4th place during the start of the Endurance event. The Endurance race comprises of a 22km race among different cars with the track being restricted to some 6ft and to check the driver's capabilities various hurdles in form of Zig-Zag pattern were designed in the race. Each team is supposed to complete 22km run on the track in order to successfully complete the Endurance Race. Along with that, teams are supposed to get their driver changed after the completion of 11km.

A seminar on "Software Testing and Selenium Tool" was organized at Gandhinagar Institute of Technology on 29th January, 2016 for students of 6th semester of CE and IT department. Total 129 students and 12 faculty members have attended the seminar. The main objective behind this seminar was to learn basic need of software testing, to understand the use of selenium tool and to make students aware about the importance of software testing. The seminar started at 9:20 am. Mr. Jalay Maru gave introduction on the seminar. Mr. Mitesh Darji, the expert of TOPS technology was invited for the seminar purpose. Seminar was conducted in two sessions.

In the first session, basic introduction on software testing, need of software testing and some real life examples regarding the same were given by the expert. Various testing deliverable terms like testing set, testing case etc and flow of testing with its importance, various techniques and types of testing were explained. Various parameters of testing and their uses were also discussed. At the end of the first session the expert Mr. Mitesh Darji explained what is automation testing and how it works. He explained the advantages of automation testing and its parameters. He shed some light on various automation testing tools. The difference between all these automation software was also defined.

The second session was about learning Software Testing with Selenium IDE tool. First it was explained how the software is tested in various units of modules. It was explained that Selenium IDE tool is a collection of various tools like Selenium IDE, Selenium RC (Remote Control), Selenium Web Driver, Selenium Grid and how it can be used for web applications across different platforms. Then a demo was given on how Selenium IDE can be installed and how it can be used. In the end possible career choices in the field of testing like IT Firms, Consulting Firms, Business, Industry and Government, Faculty/Trainer and Freelancer etc. were explained. The Seminar ended with a vote of thanks.

Mr. Mitesh Darji's Session on automation testing

Faculty and Student attended the Seminar

Workshop on Android Technology was conducted on 17th to 19th February, 2016 at Gandhinagar Institute of Technology for 6th semester CE and IT students. Total 50 students participated in this workshop. Workshop on Android Technology was successfully conducted by Mr Ankit Sodha and Mr Rahul Patel, TOPS Technology. Prof Sejal Bhavsar and Prof Parin Patel were faculty coordinators. For successful completion of workshop following students were actively engaged as student Coordinators: Tejas Gupta, Prachee Bhalani and Neelam Kumari from 6th CE. It was a very useful workshop. Students learnt about android components, programming structure, widgets and composite widgets, android menu, android receiver and android services.

There are two experts from TOPS technologies, Mr Ankit Sodha who is currently a senior Software Trainer in TOPS technologies having 3 years of experience in software development and training and Mr Rahul Patel who is a trainer and developer in Java and android having one year of experience. His current project is on "online vehicle registration (epickup)".

Activities done at workshop:

The workshop was divided into three days.

Day 1:

There was a manual and practical session in which the students were refreshed with the basics of android technology, its history, features and scopes. They learnt an overview about android components, its programming structure, its widgets and android menu. During the practical session, they installed Android studio packages and developed an android form.

Day 2:

There was a manual and practical session on advanced features and functionality of android technology. During the practical session, they continued with the form and modified it by adding advance features and functionality to it.

Day 3:

Students made media player with basic functionality. They made their own media player and played songs in it! At the end of the session, the students were able to make interactive user interface and add employee attractive features and functionalities in the app, to create customized web browser and media player and to use built in widgets and components.

Theory and Practical Session conducted at A-216

Group photo of Participants and Staff Members

Objective:

Gandhinagar Institute of Technology organized "Ethical Hacking Workshop" on 2nd and 3rd March, 2016 to aware the students about the act of locating weaknesses and vulnerabilities of computer and information systems by duplicating the intent and actions of malicious hackers.

About Tech defense:

"Ethical Hacking Workshop" was conducted by Mr. Sunny Vaghela who has rich experience of working on cases and training for Crime Branch Ahmedabad, Nashik, Rajkot, Surat and Hyderabad. He has successfully conducted more than 160 workshops and seminars for students and professionals across the globe.

He helped top investigating agencies to solve cyber terrorism cases. e.g Ahmedabad and Mumbai Blasts Cases. They do not use third party tools and have developed crypters, trojans, scripts etc. The Director and Trainer have trained professionals from Google, Yahoo, ISACA, K7 Antivirus, Temnos, KPMG, Deloitte, HCL, TCS, Infosys, Future Group, Indian Oil etc. and are supported by Ministry of Home Affairs, Malaysia.

About Speaker:

Mr. Sunny Vaghela, the director and chief technical officer, TechDefence Pvt. Ltd., is a renowned Ethical Hacker having wide experience in the field of Ethical Hacking, Cyber Crime Investigation and Forensics. At the age of 18, Sunny found many loopholes in SMS and VoIP Technology. At the age of 19, Sunny has found loopholes like "Session Hijacking" and "Cross Site Scripting" in popular social networking website-orkut.com.

At 20, he has solved more than 16 cases in association with crime branch, Ahmedabad. He has also been awarded the Rajiv Gandhi Young Achievers Award as an IT Expert of Gujarat. He traced out origin of Terror Email Trail of Ahmedabad Serial Bomb Blasts. He also helped Mumbai police to get information on "jamatuddawah" after Mumbai terrorist attacks. He has addressed more than 160 IT security conferences/workshops at National and International level across the Globe. He has trained professionals from many reputed companies like Google, Yahoo, ISACA, Temenos, ZOHO, Deloitte, K7 Antivirus, TCS, HCL, Sify and many banks of India. At 21, he has been appointed as a founder and chief technical officer of TechDefence Pvt. Ltd. which is a rapidly growing IT security training and consulting organization, focusing on cybercrime investigation, cyber law consulting, vulnerability assessment and penetration testing.

What Students Learnt?

This is an age of digitalizing and it provides a better environment for cyber criminals. The main aim of the workshop was to make students aware of basics hacking, so they can save themselves from being hacked in this digitalized world. There were around 62 students in the workshop. Workshop was started at 10 a.m. with a prayer and ended at 4 p.m. At the beginning, Mr. Sunny Vaghela introduced himself, how he found loopholes in the famous social networking website orkut.com at the age of 19, how he solved more than 16 cases in association with Crime Branch, Ahmedabad.

After the brief information about him, he started the workshop. He informed about the difference between being a hacker and being an ethical hacker. He explained us how to use various hacking tools and also how to find loopholes in various websites and web-applications to inject our SQL queries or java script to fetch required data from the particular server's database. Contents of workshop are Google Hacking, Cyber Laws, Information Scanning, E-mail Hacking, Network Hacking, Buffer Overflow, Mobile Hacking, Wireless Hacking, Application Hacking, Metasploit, Cyber Crime Investigation, Reverse Engineering etc.

The whole Workshop was full of technical knowledge and well organized by Gandhinagar Institute of Technology. GIT is thankful to Mr. Sunny Vaghela for providing such an opportunity to students and appreciated guidance and coordination of the faculties Prof. Nisha Patel and Prof. Janki Naik.

Presentation by Sunny Vaghela

Sunny Vaghela with GITians

Gandhinagar Institute of Technology, managed by Platinum Foundation and headed by visionary Director Dr N M Bhatt (who is an IITBian), has successfully achieved its leading position in the field of academics as well as co-curricular activities. As part of its social responsibility, GIT regularly conducts various youthful activities. Keeping this tradition alive, a major Blood Donation drive was organized on Octoberth 8 2015 and February 24th, 2016 respectively at the institute premises in association with Civil Hospital, Ahmedabad and Giants Group Kalol.

It began at around 9:30 am and continued up to 4:00 pm, with a steady stream of donors throughout. Ninety one and one hundred seventy two units of blood were respectively donated in the camp.

Chief Coordinator Dr N M Bhatt congratulated GIT family for being the best engineering college and bagging the award from Gujarat Technological University. He also congratulated the team of Civil Hospital, Ahmedabad and Giants Group Kalol for having organized the camp for social benefit and also assured to support for similar events in the days to come.

Prof. Hardik Bhatt and Prof. Ruchir Parikh successfully coordinated the drive with the fullest support from vibrant GIT family. Mr. Dhaval Shah, an administrative officer, Manthan Patel, a general secretary, Setu Shah, a ladies representative and students' team gave splendid support. GIT once again proved a helping hand to the society in its odd times.

Dignitaries present at "Blood Donation Camp"

Donors' Screening Test

Blood Donated by GITians

The Thalassemia trait is rising and recent studies found that approximate 3% of Indian population (as per 2015 estimate) is suffering from it. Every day in India, there is more than 10000 children, who are on constant blood supply to stay alive.

Since 2012, Gandhinagar Institute of Technology has been actively involved in Thalassemia eradication program through awareness, screening and counseling within campus. We believe that if we can prevent a Thalassemia Major Child born out of wedlock by pre-screening then we can eradicate the problem to some extent.

In the year 2015, Gandhinagar Institute of Technology appointed Indian Red Cross Society that conducted Thalassemia awareness & testing program. By this, the Institute has not only educate the young generation but also make them cautious about the next safe step to prevent Thalassemia.

Thalassemia Testing

Dates of Thalassemia testing	Total Number of students enrolled in the institute in 1 st Year	No. of students tested for Thalassemia	Thalassemia Testing (%)	No of students Thalassemia Minor	Date of Second counseling
20/08/2015	721	524	72.67	15	24/11/2015

Objective:

The “Healthy Campus Committee” in Gandhinagar Institute of Technology (GIT) celebrated “World Cancer Day” on 4th February, 2016 to raise awareness about cancer among students. The objective of this activity was to encourage prevention, detection and treatment of cancer among students and faculty members. It is observed that college students are vulnerable to tobacco abuse through different forms like cigarette smoking and chewing tobacco. Tobacco contains the addictive drug nicotine, which is readily absorbed into the bloodstream, when a tobacco product is chewed, inhaled, or smoked. Similar to other addictive drugs like cocaine and heroin, nicotine increases levels of the neurotransmitter dopamine, which affects the brain pathways that control reward and pleasure. Long-term brain changes induced by continued nicotine exposure results in addiction - a condition of compulsive drug seeking and use, even in the phase of negative consequences. Both behavioural interventions (counselling) and medication can help addicts to quit their habit.

Programme:

Gandhinagar Institute of Technology (GIT) had formed “Healthy Campus Committee” under the guidance of Narcotics Control Bureau (NCB), Ahmedabad Zonal Unit. This committee is responsible for organizing various programs/activities pertaining to awareness of Narcotic Drugs & well being of the college students. As a part of the World Cancer Day celebrations, Dr N M Bhatt, Director of GIT, graced the occasion with his words of wisdom. He spoke about the importance and need of cancer awareness among the students and faculties. Dr Arun B. Karanwal (Oncologist) was invited as the chief guest and speaker. He is currently working as a full time consultant medical oncologist & haematologist in Apollo-CBCC Hospital, Bhatt, Gandhinagar. Dr. Arun educated the students and faculties about the different forms of cancer, its symptoms and diagnosis. He stressed on the usage of tobacco intake in students and its ill effects.

Students took equal participation in the celebration by making placards and dressing in blue (boys) and pink (girls) to show their support for cancer. The programme came to an end with the recital of the following pledge:

- ⊙I pledge to remain tobacco free.
- ⊙I pledge to have regular health checkups.
- ⊙I pledge to spread awareness about cancer.
- ⊙I pledge to support the cancer victims.
- ⊙I pledge to never give up.

Both, students and faculties took equal participation in making this program a grand success.

Road accidents are major cause of death and disability in India. It has been a common refrain in the road safety among the people. Generally, it is argued that public is not greatly concerned about road safety. The lack of public concern itself is usually ascribed to a lack of awareness/knowledge about the extent of the human and economic losses arising from road accidents.

Traffic Awareness Program was successfully organized by faculty coordinator Prof. U J Patdiwala (HoD-ME), Prof. K U Adhvaryu (HoD-CE) and Prof. C D Changela (HoD-MH)

The key point is that there is a prevalent belief in the road safety community that if public awareness was increased, their level of concern would escalate, and this would, in turn, mobilize traffic awareness drive, along with producing other benefits such as changes in safe driving practices and, ultimately, fewer road crashes.

To make the awareness of traffic among the people of Ahmedabad, Gandhinagar Institute of Technology had organized "Traffic Awareness Programme" on 5th December, 2015 from 9:00 am to 5:00 pm. The objective of this program was to provide basic knowledge to the people about traffic rules and regulations using banners, play cards with slogans, pamphlets etc. The event was organized on different cross roads/circles of Ahmedabad city. The institute chose five circles of city like Income Tax cross road, Times of India cross road, Akhbarnager circle, Delhi Darwaja cross road and Sarangpur circle. For the entire event the required permission in written was granted by the Traffic Police Branch, Mithakhali cross road and necessary instructions were also given.

Among the volunteers, total 60 students of various engineering departments of GIT had helped to manage the event. Also, total 10 faculty members, 3 non-teaching staff members and 3 head of the departments had guided to the entire event successfully.

During the event on that day, traffic awareness banners were placed at various cross roads and all students and staff members helped the traffic police to manage the traffic. The whole day the volunteer students and staff performed various activities like managing the traffic, to counsel the people, to distribute the templates, to show case the play cards etc.

There was a huge media coverage of the entire event. Various media news channels like Sandesh News TV Channel, Times of India, Live Gujarat, Goodluck Samachar, DNA etc. came to various places to conduct the interview of students, staff and policemen. They took many photographs of the event at different points of circle.

It was an eye opening social event for all the students and staff to learn and obey the traffic rules, road safety, and traffic awareness, dealing with mass of people, working with policemen and handling the media group keeping in mind the objective of the event.

We all are very greatly thankful to Dr N M Bhatt, Director GIT, Trustee Shree Hareshbhai Rohera, and Shree Ghanshyambhai Thakkar for their constant motivation and support.

Also, they themselves visited the actual site of event and guided the students thoroughly. They took this social responsibility to make everyone aware about this programme, especially the young students of GIT. We are also thankful to Mr. V D Brahmabhatt, PI & Mr. Jay Mehta - Traffic Branch, Mithakhali for their cooperation, guidance and motivation with all kind of permission for the event.

Platinum foundation managed Gandhinagar Institute of Technology(GIT) organized “Aapnu Amdavad, Swachchh Amdavad” on 19th January, 2016 inspired from “Swachh Bharat Abhiyan” launched by PM Shri Narendrabhai Modi. It was organized from Satadhar Cross Road to Surdhara Circle Sola, Ahmedabad. In this event, 21 Teams, around 152 students, along with 13 faculty members jointly did the cleaning work. By doing so, they conveyed a very strong and noble message about cleanliness to all residents, pedestrians and people passing through vehicles. The students also prepared humorous and catchy banners and placard to disseminate the gallant message of keeping our society clean and tidy. The Director of the institute, Dr N M Bhatt said that it is our constant effort that our students get frequent and enough exposure to social activities like “Aapnu Amdavad, Swachh Amdavad”, along with their technical studies with great enthusiasm. Recently, GIT had also organized “Traffic Awareness Program” to generate traffic sense and “Green Gujarat Cyclothon” to make people aware about environment related issues. All these social events will help a lot to our students to become the responsible and proud citizen of India and also a good engineer.

Dr N M Bhatt, Director with Staff Members and Students

Students during Swachchhta Event

Swachhhta Pledge taken by Faculty members and Students as a Part of Event, “Apnu Amdavad, Swachchh Amdavad”

Gandhinagar Institute of Technology managed by Platinum foundation organized “Green Gujarat GIT Cyclothon-2015” on 29th December, 2015. The main motive behind the event was to bring awareness about the hazardous effects of the pollution created by vehicles that uses oil and to promote the bicycles as the best mode of transportation. The Cyclothon started 07:00 am from Shivranjani cross roads-Nehrunagar circle-Sahjanand college-LDCE hostels-Vijay cross roads-Helmet circle-Andhajan Mandal-Shivranjani cross roads and ended 09:00 am. Dr N M Bhatt Director-GIT flagged off the cyclothon. Approximately 100 participants including Mr. Vinay Rohera and Mr. Rushabh Shah from GIT Family displayed their willingness to save the planet earth by riding a bicycle. Some participants also prepared meaningful banners and placards to motivate the city residents. Huge media coverage was also attained for this noble cause activity.

Flag off of Cyclothon by Dr N M Bhatt

Staff members and Student participants on their Way from Shivranjani Cross Road, Ahmedabad

Gandhinagar Institute of Technology is not only known for its excellence in teaching, but also known because of its co-curricular culture. It had celebrated various events like Cyclothon, Traffic Awareness Programme, Swachh Bharat Abhiyan, World Cancer Day, Cultural Event, Techfest and many more. February 29, also known as leap day or leap year day, is a date added to most years that are divisible by 4. Years containing a leap day are called leap years. A leap day is observed as a complete revolution around the Sun that takes approximately 6 hours longer than 365 days. It compensates for this lag, realigning the calendar with the Earth's position in the Solar System, otherwise, seasons would occur in a different time than intended in the calendar year.

This time, GIT has taken initiative to celebrate leap year 2016 in a different way. “Joy of Giving: A Step towards educating Underprivileged School Children” was organized on 29th February. A complementary distribution of stationary kit including pencil, eraser, sharpener, scale, compass box and notebook was done to municipal school children belonging to slum area. Students had a great smile on their faces after receiving the kits. Old clothes were also contributed by GITians among needy and poor people staying on roadsides. In this noble cause, our students, along with faculty members and trustees, had undertaken the distribution to school children. The event was managed by Dr Umang Patel (HoD EE) and Prof Jay Parmar (HoD CL) under the guidance of Dr N M Bhatt, Director.

Gandhinagar Institute of Technology (GIT) organized the 1st Alumni Meet on 31st January, 2016 to portray the idea of reunion of all students graduated from the institute. Around 150 Alumni had come to grace the event on the day, along with GIT faculty members. Honorable trustees were also present to make the event awesome.

The event was started by the warm welcoming speech of the Honourable Director, Dr N M Bhatt. Among the fascinated cheering from the Alumni, Director sir had narrated the motive behind this meet, along with the glimpse of GIT co-curricular and extra-curricular activities.

Among the past memories of Alumni during their college span, which were continuously blinking in front of their eyes over the big screen, the Institute had also arranged the musical event for them in form of the band of Suraj Chauhan. The band had rocked the event followed by the other musical band on the day of alumni meet.

Two of the current students of the institute had performed the role-play that glittered the past memories of alumni in such a way that they felt like they were yet students. The whole event had mesmerized the past glory of GIT ambassadors.

During the event, the Alumni-Student interaction had also been arranged so as to make the current students to understand the current scenario and requirement in the real time engineering. The alumni had shared their experiences on the field and advised the current students related to the further skill development to cope up with the current trends.

The whole evening of 1st Alumni Meet was then followed by the wonderful delicious dinner and then ended by the cheerful and wonderful dance party.

Objective:

The objective of this activity is to increase the awareness about Anti-Narcotics among students and to highlight the threat that drugs pose to our society. It is observed that the college students are vulnerable to drug abuse. To curb this menace, Gandhinagar Institute of Technology (GIT) had formed a "Healthy Campus Committee" under the guidance of Narcotics Control Bureau (NCB), Ahmedabad Zonal Unit. This committee is responsible for organizing various programs/activities pertaining to the awareness of Narcotic Drugs & well being of the college students. With this motive, the "Healthy Campus Committee" conducted an "Anti-Narcotics Awareness Drive" on 24 September, 2015.

As a part of the drive, the following activities were organized:

- ⊙ Extempore
- ⊙ Debate
- ⊙ Graffiti

Prof. Jayraj Pandya was invited to judge the events. He is actively working in the educational sector since last 20 years. A vocational expert, proficient in English and Gujarati both, delivers lectures and conducts seminars on career guidance, improving soft skills, strengthening language command and many others. He has been focusing on the overall development of students' personalities and provides training for the same. During the event, students were educated about the ill effects of narcotics. Both, students and faculties took equal participation in making this program a grand success.

1) Extempore:

In this event, the participants were given the topics on the spot and were required to speak on the same for 3 minutes. They were judged by their spontaneity, ability to express thoughts, fluency in language and body language/confidence. The following topics pertaining to anti-narcotics were given to the participants:

- ⊙ The ill effects of narcotics in youngsters.
- ⊙ How to prevent consumption of narcotics among students
- ⊙ Steps taken by government to ban the use of narcotics.

A student expressing views on "The ill effects of narcotics in youngsters"

Prof. Jayraj Pandya addressing the Students about the ill effects of narcotics.

Debate:

The topic for the debate was "Marijuana Legalization: Disaster or Catastrophe". The participants were divided into two groups: one supporting a resolution (affirmative team), and one opposing the resolution (opposing team). The affirmative and opposing teams consisted of five members each. Debate opened with the affirmative team presenting their arguments, followed by a member of the opposing team. Finally, each team members got an opportunity for rebutting the arguments of the opponent. The debate was well attended by both faculties and students.

The group of debaters speaking: "Against the Motion" The debaters are seen raising Arguments during the Debate

Dr N M Bhatt, Director and Judges can be seen in the First Row. The Debaters engaged the Crowd with their Views on Narcotics

Graffiti:

In this event the participants made drawings and painting on the wall. They were asked to make the painting on a paper and then reproduce the same on the wall. The participants tried to express their views on the underlying effect of narcotics among students. The event was well attended by both faculties and students.

A student expressing his views through the Graffiti event through his painting titled "Cease Narcotics". He further scribbled: "What's the point in looking cool, if you're dead"

Under the visionary Leadership of Hon. Prime Minister Shri Narendrabhai Modi, 21 June has been declared as INTERNATIONAL YOGA DAY. Yoga has not been limited and restricted to any community, religion, area, nation, society or any economy, but today the entire world has accepted and started practicing yoga. The whole credit for this completely vested to our culture roots. It has been decided and declared to celebrate at National State, District, Taluka, Villages as well as individual, Institutions, Universities and NGOs too.

Brief Details about Yoga Training by Institute from 15th to 20th June, 2016:

GIT always aware about the seriousness of health and fitness of people who constantly work with stress and pressure. In order to celebrate International YOGA day, GIT organized practice sessions of yoga from 15th to 20th June 2016, in which all asanas and pranayam were performed by all faculty members along with students/volunteers and team-yoga - Prof. Leena Patel, Prof Vineeta Nishad, Prof. Anjana Nagaria, Prof. Mohit Mistri in Seminar hall. Prof. Leena Patel presented a motivational story and patriotism session on the screen.

Yoga Training Sessions

Brief Details about International Yoga Day Celebration on 21st June, 2016 :

On 21st June 2016, Gandhinagar Institute of Technology (GIT) celebrated International Yoga Day in morning during 7:00 am to 8:15 am at the Front Lawns near Open Air Theatre at the Institute premises. The program began with a brief speech of Dr N M Bhatt, Director, GIT and Dean GTU. In his address to the gathering he put emphasis on importance of Yoga in daily life and showed how such practice can be useful in studies and profession. He congratulated GIT family for their enthusiastic approach towards Yoga. Hon'ble Prime Minister Mr. Narendra Modi's message on International Yoga Day was then delivered.

After PM's motivational words, Yoga was performed by the energetic and vibrant GIT family under the guidance from Prof. Leena Patel and the team. A huge crowd including staff and students of GIT did an awakening Yoga session and decided to impart Yoga in their daily life in future. The program ended with the patriotic tunes of National Anthem.

International Yoga Day Celebration

International Yoga Day Celebration

Best Yoga practitioner certificates and awards were given to Jashank Dighe(150120109009) and Rajput Divya(150120116080) in student category and Prof. Sonali Virparia in staff member category

Brief Details about Essay writing Competition on "Benefits of Yoga"

GIT, under the visionary leadership of Director Dr N M Bhatt, has conducted an Essay competition on 17th June, 2016 in accordance of Yoga day on 21st June. The competition having over 100 entries was held in the A-Block (A-206, A-207, A-208) and flagged off at 9:30 am. The competition was flagged green by Dr N M Bhatt who emphasized on the importance of Yoga and its benefits. He wished all the competitors fair spirits and luck.

The competition had a versatile option in language (English, Hindi, and Gujarati). The topic of yoga was "BENEFITS OF YOGA" The competition sailed towards the end by 10:15 am. After submission of all the marvellous essays, the co-ordinators expressed their gratitude and encouraged the participants to participate in such competitions and regularly practice Yoga in their daily lives.

Essay Writing Competition Photo Gallery

Out of 100 essays, three best essays were sent to GTU according to the GTU circular. The winners were Thaker Harshil (150120109013), Rutvik Oza (130120116042) and Thakkar Harshil (150120106098).

Narcotics Control Bureau (NCB), Ahmedabad Zonal Unit is conducting a series of programmes and events in an effort to highlight before the general public the existential threat that drug pose to our society. NCB organized a "Leaders' Felicitation Cum Leaders' Meet" of Healthy Campus on 22nd March, 2016 at Hotel Grand Bhagwati, S. G. Highway, Ahmedabad from 4:30 to 6:30 pm. Its objective was to felicitate students, colleges and individuals, who have done remarkable work in promoting and spreading awareness about the Healthy Campus initiative. Officers of State Police, Education Department, students and faculty members from various engineering and non-engineering colleges attended the programme. Dr N M Bhatt, Director of GIT, along with faculty and student members from 'Healthy Campus Committee' of Gandhinagar Institute of Technology attended the programme.

Hari Om Gandhi (Zonal Director, NCB), Dr N M Bhatt (Director, GIT) and other Dignitaries graced the Occasion with their Presence.

Members of the Healthy Campus Committee. Left to Right: Manthan Patel, Rutvik Oza, Lalit Krishnani, Prof. Jatin Chakravarti (EC Dept.), Dr N M Bhatt (Director, GIT), Prof. Hardik Bhatt (HOD EC), Setu Shah, Nidhi Shah, Dhaval Rajpura and Shrey Patel.

The Secret of Success
 Success is the driving force of all mankind;
 Many get enamoured of its odour,
 And get fascinated by its thought;
 But defer from its route of hardship,
 While facing a train of hurdles and defeats.
 Some get fatigued and run away,
 Untangling themselves from the task,
 Finding the negative outcome of their labour,
 They strike a note of pessimism and sing
 The chorus of the futility of existence.
 Some face all odds, anchored in self-confidence,
 Not uprooted from their will and determination,
 Not overcome by gloom and defeat,
 But turning all obstacles into opportunities
 Opportunities for growth and development.
 To them, failures come and go, like passing clouds,
 But seldom shake them and destabilize them;
 They view life as replete with failures,
 But all failures are transmutable into success stories.
 Because of this attitude, they win and keep conquering.

Prof. Nirupama Patel
 Assistant Professor
 M & H Department

જ્ઞાન ના મહાસાગર માં લહેરોની જેમ ગુંજતું એક નામ એટલે જીઆઈટી,
 સુરજ ની જેમ આકાશે યડતું એક નામ એટલે જીઆઈટી,
 ગમ્મત સાથે જ્ઞાન છે અહીં
 સપનાઓનાં સોપાન છે અહીં
 સંગીત અને પ્રેમ ની તકરાર છે અહીં
 તો ગરબા પ્રેમી બધા દિલ છે અહીં
 જ્યાં ક્રિકેટ,કબડ્ડી, ખો-ખો અને માર્ચ-પાસ્ટ જેવા ખેલ રમાય છે અહીં
 ત્યાં શીખવું અને શીખવાડવું સહુ ને ગમે છે અહીં
 એટલે જ પ્રેમ અને મિત્રતા નો ભાસ કરાવતું એક ઉજવળ નામ એટલે જીઆઈટી,
 જઝબા અને ટેકએક્સટ્રીમ જેવા ફેસ્ટિવલ માં દેખાય છે ટેલેન્ટ ભરપૂર
 બ્લડ ડોનેશન કેમ્પ અહીં વધારે છે નૂર
 અવનવી વાતો શીખવાડે છે અહીં ના મોટા મોટા કોન્ફરન્સ અને સેમિનાર
 વિશાળ લાયબ્રેરી આપે છે અહીં આ બધી વાતો નો રેકર્ડન્સ
 સપનાઓ સાકાર કરવા માટેનું સૂનેહરુ ધામ એટલે જીઆઈટી,
 સફળતા ના નામનો ગૂંજતો એક પૈગામ એટલે જીઆઈટી,
 એટલે જ હવે નામ માંથી એક બ્રાન્ડ બની છે
 જીઆઈટી આપણી ગ્રાન્ડ બની છે
 ગર્વ અનુભવું છું કે જીઆઈટી નો એક અંશ છું
 હું એન્જીનીરીંગ નો એક વંશ છું
