A Report on

“Essentials of Editing with Lightroom and Snapseed”

(28th May 2020)

## **Event Overview:**

Essentials of Editing with Lightroom and Snapseed webinar was organized by Computer engineering department of GIT and presented by Pranav Kewlani (150120107122) and Nimesh Prajapati (180120107134) students of Computer Engineering Department to share and educate basic information regarding photo editing skills under SSIP. Total there were 32 number of participant's from different branches of engineering.

## **Objective:**

This webinar was mainly aimed to provide the knowledge of lightroom and snapseed photo editing software. The Silent objective was to be a little creative with the photo editing skills in this digital era.

## **Event Detail:**

The webinar “Essentials of Editing with Lightroom and Snapseed” was conducted under coordination of Prof. Archana Singh & Prof. Sejal Bhavsar. This session demonstrated basic functionalities related to mentioned softwares. The webinar started with the briefing of the editing tools. The lightroom software is a adobe free source software.

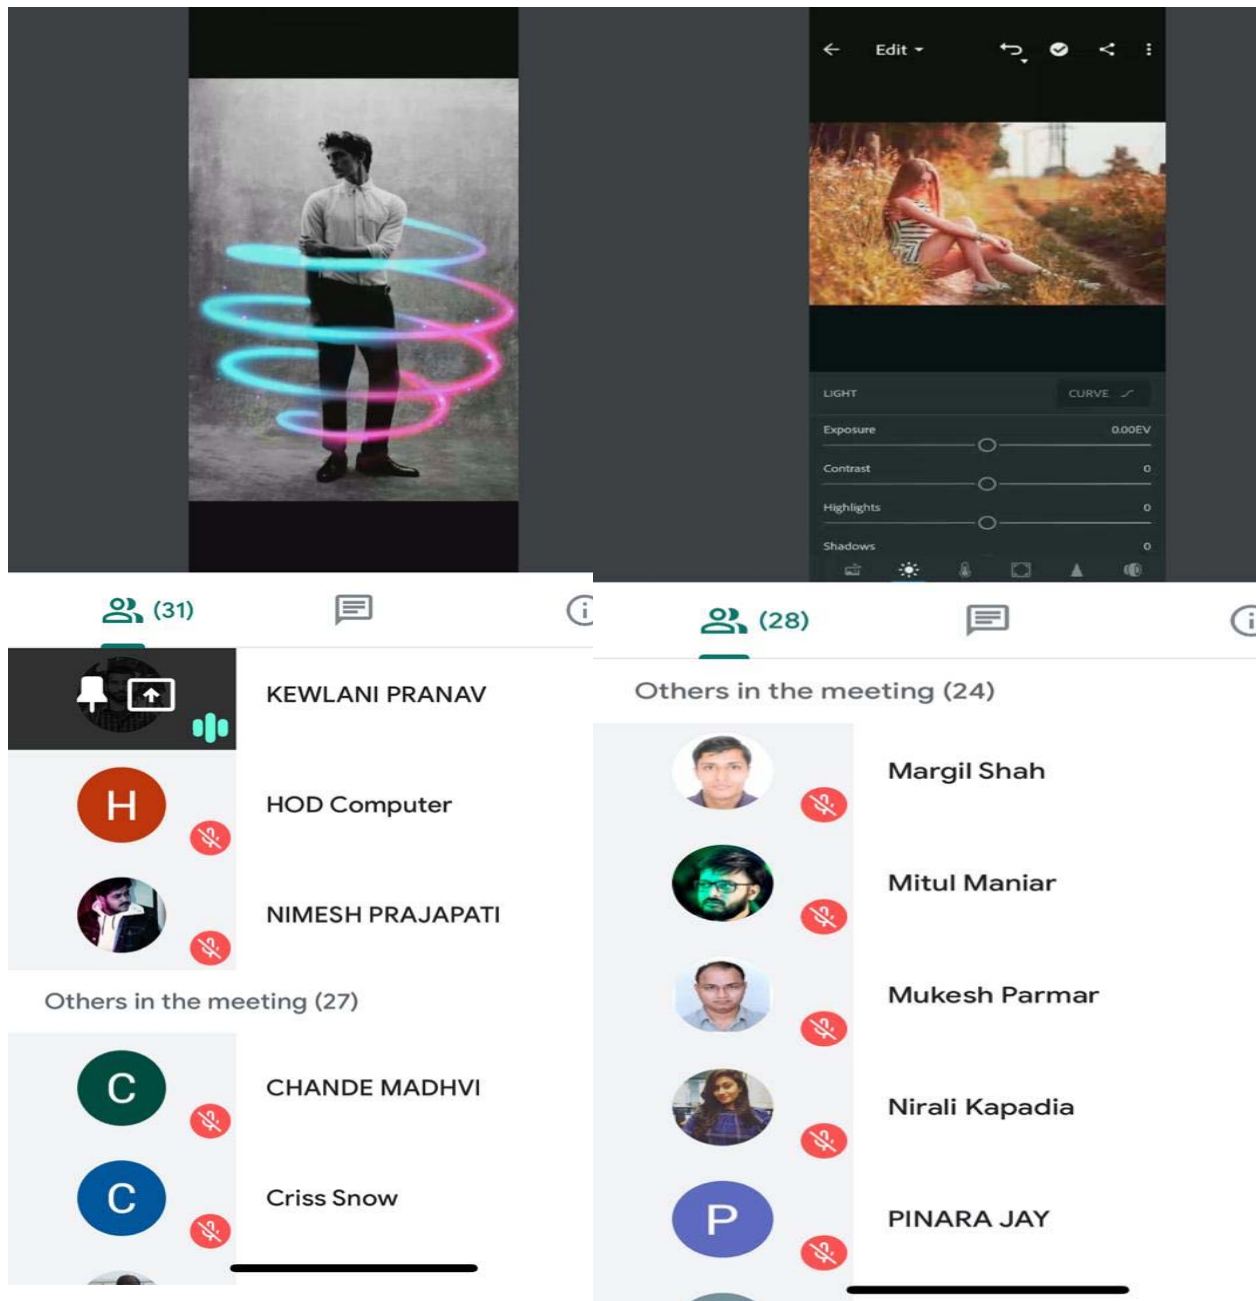

## **The Major Key Takeaway of Program:**

- Raw editing
- Easy batch editing
- Knowledge regarding adobe sensei
- Various application and features regarding tools
- Comparison between different editing apps

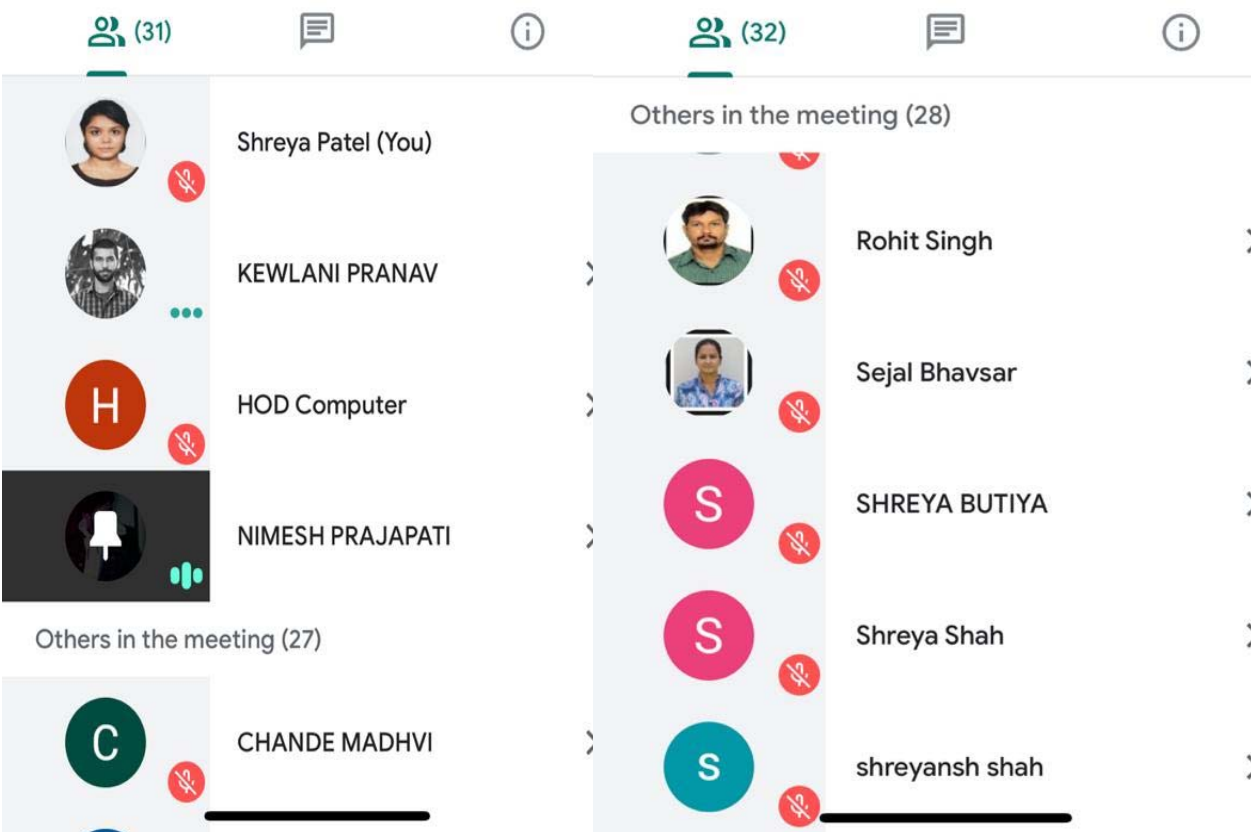

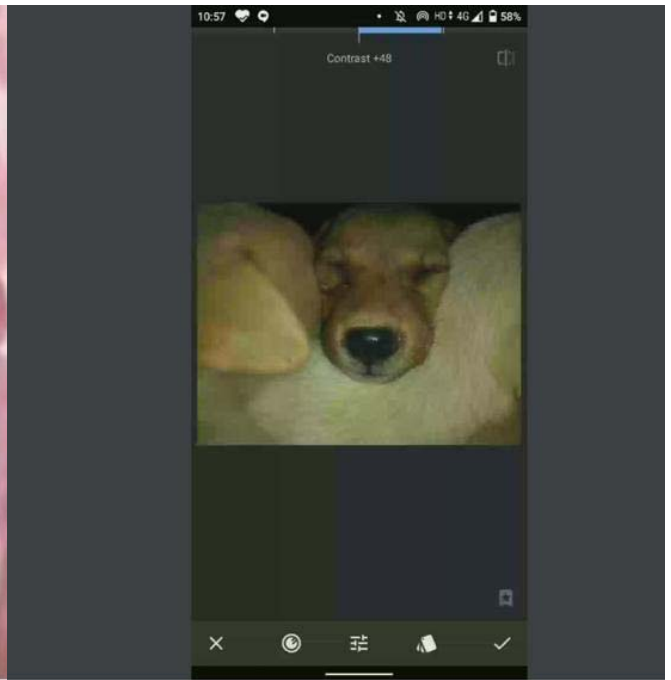

Every participant got basic information regarding various editing techniques. The session was showcased and represented well with multiple examples based on the editing shortcuts. The session ended with the comparison of both the tools and with different user-friendly tools too. It was very informative and interactive webinar.

The webinar was a grand success under the enlightenment of Dr H N Shah, Director of the institute and the participants.
