

Gandhinagar Institute of Technology

A Report on

“Innovation Presentation Technique”

(8 February 2021)

Event Overview:

The webinar on “Innovation Presentation Technique” was organized on 8th February 2021 at Gandhinagar Institute of Technology by SSIP Cell. The session was organized for the students of Bachelor of Engineering 3rd & 4th year with the permission of Dr H N Shah, Director. The seminar was organized to educate the participants about the techniques of presentation.

Objective:

The objective of the session was to share the information regarding the methodology to prepare the presentation in any innovation-based project screening or competition. The silent objective was also to educate them about need of innovation in the current situation.

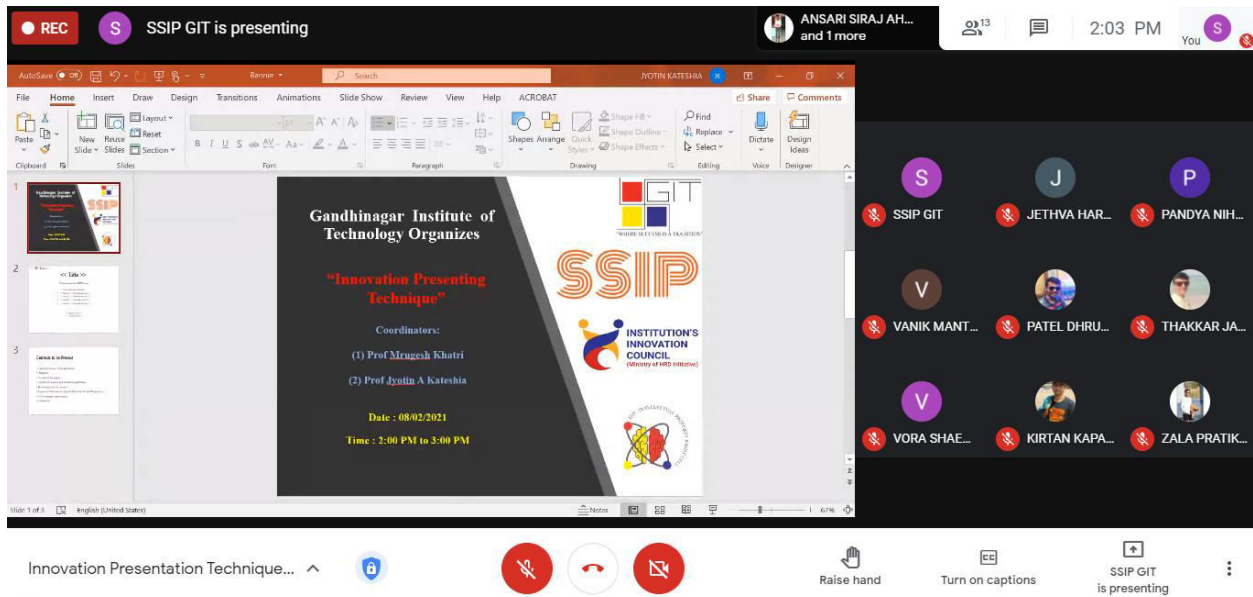

Program Overview:

There were 18 students participated in the session. The session started at 2:00 pm through Google Meet. Prof Mrugesh Khatri has initiated the session with the importance of innovation in the current situation. He added that day by day new type of challenges are coming into human life. Hence, the innovative problem solutions will become key weapon to get succeed in upcoming time. He informed does and doesn't while presenting idea in front of the panel members. He added that you must focus on the novelty of your idea, your literature survey and benefit to the society.

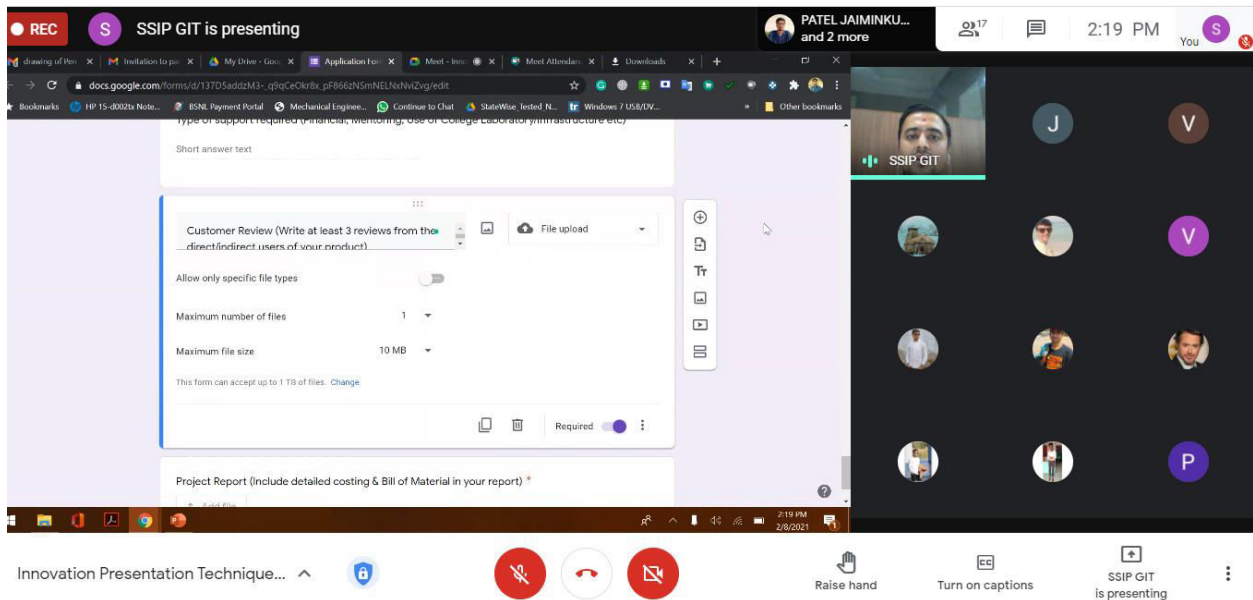

Prof Jyotin A Kateshia discussed the key content that must be present in the presentation. He added that the prior art search of your idea will create a significant impact on the external panel members. He also informed students to keep their presentation short and effective. He also educated them that the aim of any engineering research or project is to provide an easy solution to make human life more comfortable.

The event was a grand success under the enlightenment of Dr H N Shah, Director of the institute and the participants.
