Agenda(s):	<ol style="list-style-type: none"> 1. Revision in content of Syllabus of BBA (Second Year) 2. Revision in Content of Syllabus of MBA (Second Year) 3. Introduction of new subject offerings in AEC, SEC, & VAC as per NEP in 3rd Semester

The Fourth Board of Studies Meeting was held as per details mentioned above.

The following members attended the meeting:

Sr. No.	Name	Designation	Signature
1.	Dr. Virendra Chavda	Chairman	
2.	Dr Ashish Joshi	External Member	
3.	Mr. Jigar Patel	External Member	
4.	Dr. Nehal A. Shah	Internal Member	
5.	Dr. Devendra Lodha	Internal Member	
6.	Dr. Rosy Dhall	Internal Member	

The minutes of the meeting held on 02/06/2025 are as follows:

1. Prof. Nehal Shah, Associate Professor, extended a warm welcome to the Hon'ble Chairman and other distinguished members, introducing them to the vision and ethos of Gandhinagar University. Dr. Virendra Chavda, Associate Professor, cordially received the external members with floral greetings and expressed gratitude for their presence. He highlighted the key academic achievements and innovative initiatives recently undertaken by the Gandhinagar Institute of Management, emphasizing its commitment to excellence in teaching, research, and industry collaboration. Dr. Chavda further outlined the purpose of the meeting and provided a brief overview of the agenda items to be deliberated upon with the Board of Studies (BoS) members, setting a positive tone for constructive discussions ahead.

2. Referring to Agenda Item 1

The Board of Studies (BoS) members reviewed the proposed revisions in the syllabus of the BBA (Second Year) program. The committee appreciated the efforts to incorporate contemporary topics, practical learning components, and industry-relevant case studies. After discussion, the revised content was approved with a recommendation to strengthen analytical and communication skills through experiential learning modules.

3. Referring to Agenda Item 2

The BoS members deliberated on the revisions proposed for the MBA (Second Year) syllabus. The inclusion of updated electives, research orientation, and sector-specific courses was well received. Members suggested further integration of emerging areas such as digital transformation, business analytics, and sustainable practices. With these suggestions, the syllabus was approved to ensure its continued relevance to academic and professional demands.

4. Referring to Agenda Item 3

The introduction of new subject offerings under AEC (Ability Enhancement Courses), SEC (Skill Enhancement Courses), and VAC (Value Added Courses) for the 3rd Semester, in line with the NEP guidelines, was discussed. The BoS members unanimously endorsed the initiative, highlighting its importance in fostering holistic student development. It was recommended that courses be designed to balance

theoretical understanding with hands-on application, and students be encouraged to take advantage of online learning platforms such as NPTEL-SWAYAM for wider exposure.

The meeting concluded with a formal vote of thanks, wherein the members sincerely acknowledged the Chair for their insightful leadership, valuable guidance, and encouragement in steering the deliberations of the Board of Studies (BoS) towards meaningful outcomes. Gratitude was also extended to all internal and external members for their active participation, constructive suggestions, and collaborative spirit in reviewing and strengthening the curriculum. The session ended on a positive note with a shared commitment to implementing the approved revisions and initiatives, thereby ensuring academic excellence and alignment with contemporary educational and industry requirements.

Comments given by BoS Members

Date :

- * Integrate emerging areas such as digital transformation to align with current business trends.
- * Include business analytics to strengthen students' analytical and decision-making capabilities.
- * The syllabus should also cover sustainable practices to reflect the growing importance of responsible business operations.
- * Courses should be designed to maintain a balance between theoretical concepts and practical, hands-on applications.
- * Students should be encouraged to explore online learning platforms like NPTEL-SWAYAM for broader exposure and continuous learning.

1. Welcome and Introduction

The meeting commenced at 12:30 PM with a welcome address by the Chairperson, Dr. D. K. Acharya, who acknowledged the importance of updating the syllabus to reflect recent advancements in the fields of Life Science.

2. Approval of Agenda

The Chairperson presented the agenda for the meeting, which was unanimously approved by the members.

3. Discussion on Syllabus for Life Science

3.1 Food and Nutrition Syllabus Update

- Recent Advancements in Food and Nutrition:
The members discussed the inclusion of recent advancements such as:
 - Nutrigenomics and its role in personalized nutrition.
 - Functional foods, probiotics, and prebiotics in disease prevention.
 - Role of hormone receptors and its dietary planning.

The syllabus should now incorporate these areas, with dedicated units focusing on modern techniques like gene editing and microbial genomics.

- Proposed Changes:
 - Introduction of topics like clinical nutrition, community nutrition, and sports nutrition, endocrine receptors, Neuromuscular Disorders.
 - Case studies on malnutrition, obesity, and lifestyle diseases.
 - Practical exposure to nutritional assessment tools, food labeling, and diet formulation software

3.2 Environmental Science Syllabus Update

- Recent Advancements in Environmental Science: The committee reviewed the rapid progress in Environmental Science, particularly in the following areas:
 - Include hypothesis testing in Biostatistics.
 - Introduction to Sources of water pollution in Environmental Biotechnology course.
 - Circular economy and zero-waste technologies.
 - Remote sensing and GIS applications in environmental monitoring.
- Proposed Changes:
 - Add modules on sustainability science, green technologies, and environmental law & policy.
 - Integration of SDGs (Sustainable Development Goals) framework in curriculum.

4. Integration of Recent Advances into Practical Work

• Modernization of Lab Facilities:

It was agreed that laboratories must be equipped with updated tools such as modern Environmental sensors, carbon footprints, and field surveys to support new experiments.

• New Practical Experiments

The members agreed that practicals should be regularly updated to ensure students are proficient in handling cutting-edge laboratory equipment and techniques.

5. Recommendation for New Reference Books and Journals

- The inclusion of the latest reference books and Journals was emphasized for Life Science.

Suggestions included in Pharmaceutical Science:

- Inclusion of Human physiology and anatomy can be included.

Recent Advancements to be Incorporated in Pharmaceutical Science:

- mRNA-based drug development (post-COVID vaccine technology).
- CRISPR-based gene editing for therapeutic applications.
- Nanopharmaceuticals and targeted drug delivery systems.

6. Review of Evaluation Patterns

- A suggestion was made to incorporate continuous assessment methods, including project work and practical-based evaluation, to better align with modern educational practices.
- The idea of including online quizzes and virtual laboratory simulations to help students engage with complex Life Science concepts was also discussed.

7. Closing Remarks

The Chairperson thanked all members for their valuable contributions and reiterated the importance of keeping the curriculum current and relevant in light of the rapid advancements in the fields of Life Science. The meeting was adjourned at 4:00 PM.

Action Items:

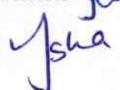

- Finalize syllabus revisions and circulate to committee.
- Compile a list of new reference materials and journals for the syllabus update.
- Review and update practical work content based on current advancements.

2. Approval of Agenda

The Chairperson presented the agenda for the meeting, which was unanimously approved by the members.

3. Discussion on Syllabus for Microbiology and Biotechnology

3.1 Microbiology Syllabus Update

- **Recent Advancements in Microbiology:**

The members discussed the inclusion of recent advancements such as:

- Microorganisms in **bioremediation, biofertilizers, and biocontrol agents.**
- Role of microbes in **sustainable agriculture and green technology.**
- Quality control and microbial standards in **pharmaceuticals and food industries.**

The syllabus should now incorporate these areas, with dedicated units focusing on modern techniques like gene editing and microbial genomics.

- **Proposed Changes:**

- Introduction of interdisciplinary topics like pharmaceutical Biotechnology, bioprocessing, and bioinformatics.
- Emphasis on environmental microbiology and the study of microorganisms in natural ecosystems.

- Revised practicals to include laboratory-based studies on gel electrophoresis techniques.

3.2 Biotechnology Syllabus Update

- Recent Advancements in Biotechnology: The committee reviewed the rapid progress in biotechnology, particularly in the following areas:
 - Recombinant DNA Technology and its role in creating novel organisms and biosynthetic pathways.
 - The latest in recombinant enzymes and biopharmaceuticals, including the development of vaccines and biological therapeutics.
 - The application of RNA therapeutics in recent times.
 - In silico tools – sequence alignment, structure prediction, CRISPR and genome editing.
- Proposed Changes:
 - A new module on Bioinformatics and Computational Biology to cover data analysis techniques.
 - Expansion of the unit on genetic engineering to include more hands-on laboratory work on plant and animal biotechnology.
 - The syllabus will also incorporate new case studies and real-world examples of biotechnological applications in healthcare, agriculture, and environmental sectors.

4. Integration of Recent Advances into Practical Work

- New Practical Experiments:
 - Recent day case study.
 - Software for molecular biology: BLAST, Clustal Omega, PyMOL.
 - Biotechnology Applications: Practical sessions on DNA isolation, recombinant DNA technology and protein purification.

The members agreed that practicals should be regularly updated to ensure students are proficient in handling cutting-edge laboratory equipment and techniques.

5. Recommendation for New Reference Books and Journals

- The inclusion of the latest reference books and Journals was emphasized for both Microbiology and Biotechnology.

- Online resources and open-access journals in the fields Microbiology and Biotechnology.

- Write the word First/ Second- and Third-year B.Sc. in Teaching Scheme and Pre-requisite of each paper according to curriculum.
- Mention the two hours for practical in teaching scheme and list of experiments of each paper of all the semesters of B.Sc.-Physics.
- Mention the total credit as 04 (03+01) instead of 04 in teaching scheme of each paper of all the semesters of B.Sc.-Physics.
- Change the Title of Each Paper Mentioned in Teaching Scheme according to written in Subject title.
- Add the topic Basic Concepts about the operators in Unit-2 Angular Momentum and add some topics regarding the Modern Physics Applications in Unit-3 Formulation of Quantum Statistics in the Major Paper -Quantum and Statistical Mechanics of SEM-V.
- Add the reference book of Atomic and Molecular Spectra by Rajkumar, 2020 Edition, Kedarnath Publications in the Major Paper- Molecular spectroscopy of SEM-V.
- Add the topics Energy Band Diagrams and band theory of n-type and p-type semiconductors, Introduction to Negative and Positive feedback amplifiers and remove the topics of Zener, Tunnel, Photo and Varactor Diode from the Unit-1 Semiconductor devices and add the reference books of FUNDAMENTALS OF DIGITAL CIRCUITS by A. ANAND KUMAR, 4th Edition, PHI Publications and Principles of Electronics by V K Mehta, 12th Revised Edition, S. Chand Publications in the Major paper- Semiconductor Devices and Digital Electronics of SEM-V.
- Add the reference book of Mathematical Physics by P K Chattopadhyay, New Academic Science Publisher, 3rd Revised edition in the Minor Paper Mathematical Physics of SEM-V.

- If possible then change the topics of Band theory in solids, metals, semiconductors, insulators by another Solid-state Physics topics like Kronig Penny Model, Carrier concentration in Intrinsic and Extrinsic semiconductors etc. in Unit-2-Conduction in semiconductors of major paper Solid State Physics of SEM-VI.
- Rename the title of Second major paper by Oscillators and Operational Amplifiers in SEM-VI curriculum.
- Kindly add the edition and name of publishers in each reference and suggested books for proximity of curriculum.
